

The Yun Family's Ninth Child is an Imp! Chapter 2373

Fan Mingchuan snorted coldly, "It's fine for you guys to enter the desert, but it's extremely hot inside the desert. After you guys came out of the desert and saw the holy water, how could you not drink it? If you secretly drink our fan family's holy water, kill without mercy!"

Yun chujiu cursed in her heart, damn it! Your fan family's holy water? ! Are You Shameless? ? ! That was clearly a stream water, how did it become your fan family's?

Although Yun Chujiu was angry in her heart., but on the surface, she said aggrievedly, "Young master, you really wronged us! Because our spiritual power is low, we have a very ample reserve of resources. In addition, we didn't encounter a single demonic beast in the valley, so we didn't dare to drink the stream water, afraid that something was wrong."

As Yun Chujiu spoke, she took out three large water vats filled with water, proving that she wasn't lying.

The garlic nose leaned over and took a sip. "Young Master Mingchuan, this is indeed not the taste of our holy water. I was once rewarded with a cup of it, and the taste was comparable to immortal dew. This is just ordinary water. "Moreover, when we discovered them, they were still some distance away from the stream, so they probably didn't drink the holy water secretly."

Garlic Nose was afraid that if fan Mingchuan really wanted to kill Yun Chujiu and the other two, Yun Chujiu and the other two would jump over the wall and say that they had bribed them, so he tried his best to excuse them.

Fan Mingchuan's face was gloomy as he said to the attendant behind him, "These two are not suitable for patrolling in the back mountain. Send them along with these three to the mine to mine!"

Garlic nose and the other two immediately knelt on the ground. "Young Master Mingchuan, please spare our lives! Young Master Mingchuan, although we accepted their spirit stones, we only dared to accept them after we found out that they didn't drink the holy water secretly. Please spare our lives!"

Yun chujiu pursed her lips in her heart. These two were really stupid. If they did not say that there was still some room for reconciliation, then they had to go or Not!

Sure enough, Fan Mingchuan did not even look at the two of them. He waved at the guards behind him, indicating for them to take them away.

Xue Wuji and Jin Zhi stole a glance at Yun Chujiu. When they saw that Yun chujiu did not have any reaction, they did not resist and left the back mountain with the four guards.

Yun chujiu naturally wanted to escape, but she could not see through the spiritual powers of the four guards. Moreover, this was clearly the fan family's territory. If they were to use force, there was no chance of victory.

She could only take one step at a time. If it really did not work out, she would get di beiming to send a message to Old Master Ye.

Yun chujiu was very regretful now. Why did she not think of asking old master ye or ye Bingyu for the sound transmission talisman? How Stupid!

Yun chujiu originally thought that the mine that fan Mingchuan mentioned was very far from here. She did not expect to see a mine after leaving the back of the mountain and walking a few dozen miles to the side.

There were many guards guarding the entrance of the mine. One of the guards who sent them here said to a small leader, "These two made a mistake. These three trespassed into the back of the mountain. I'll leave them to you."

After the Guard finished speaking, he left with his men.

The small leader did not pay attention to the two people with the garlic nose. Instead, he sized up Yun Chujiu and Jin Zhi. A lustful look flashed across his eyes. Although these two girls' faces were dirty., however, the girls in the mine were either old or ugly. It was rare to meet two beautiful girls. He could find an opportunity to have some fun.

The leader had a few thoughts in his mind. Then, he said to a guard, "They are new here. I don't think they know how to mine. Let them go to the canteen to help with the cooking first. We will let them mine with us in two days."
