

The Yun Family's Ninth Child is an Imp! Chapter 2375

Yun Chujiu said a lot of nice things, and the canteen manager left with a belly full.

Yun chujiu brought Jin Zhi and Jin Zhi to the empty room that the canteen manager mentioned. The conditions were naturally very simple, but at least they did not have to squeeze together with others. It was more convenient to talk.

The three of them cleaned briefly and then began to discuss the next step of their plan.

Jin Zhi was just about to speak when Yun chujiu shook her head at her, indicating for the three of them to use the voice transmission talisman to communicate.

“Little Jiu, what should we do next? Inform Your Excellency?” Jin Zhi asked.

“When we were talking earlier, they seemed to have encountered some trouble. I’m afraid they won’t be able to escape for a while. Let’s see the situation first. If it doesn’t work, we’ll inform them again. “I’ll just ask Old Master Ye or ye Bingyu for a voice transmission talisman. How Stupid!” Yun Chujiu said in annoyance.

Xue Wuji’s brows were tightly knitted. “Little Sister Jiu, this place is heavily guarded. It’s basically impossible to rush out. I’m afraid that there’s no other way apart from letting that expressionless di beiming come and save us.”

“It’s not like there’s no chance at all. I still have some netherworld powder in my hands. Coincidentally, we’re still in the canteen, so if we find an opportunity to enter the food, we’ll be able to escape. “However, this is the fan family’s territory. I’m afraid that we won’t be able to run far before we are captured.

“Oh right, these are disguising pills. Eat them to avoid trouble in the future. “I’ll teach you another set of cultivation methods to change your spiritual roots, especially brother Wuji. It’s too easy for people to recognize you as a mutated wind spiritual root.”

After Yun Chujiu finished speaking, she gave Jin Zhi and Xue Wuji half a disguising pill each. This way, they could last for at least five days.

Xue Wuji and Jin Zhi were both smart people. They quickly learned the cultivation method that Yun Chujiu had taught them to change their spirit roots. Only then did the three of them go to bed to rest.

Of course, the ones who went to bed to rest were Yun Chujiu and Jin Zhi. Xue Wuji could only sleep on the ground. Moreover, he had to be on night duty in the first half of the night.

The next day, before dawn, the three of them got up and went to the canteen to start the fire.

Yun chujiu found joy in her misery as she recalled the days when she was in the Ling Hua sect. She did not expect that she would become a fire-burning servant again in her lifetime.

After a busy morning, the three of them had just sat down to eat breakfast when they saw the little leader that they had met at the door the day before walking over unsteadily.

The little leader could not help but feel a little disappointed when he saw the appearance of Yun Chujiu and Jin Zhi after their disguises. Originally, after taking the disguising pills, their appearances were very ordinary. In addition, Yun Chujiu and Jin Zhi had deliberately disguised themselves to look ugly, therefore, one could imagine how honorable they were.

Although the leader was disappointed, he thought about it. No matter what, these two were little girls. Whether they looked good or not would be the same at night.

When the leader thought of this, he asked with a fake smile, "Are you two ladies used to it?"

Yun chujiu said with a hoarse voice, "It's quite good. As long as we have a meal, it's fine."

The leader frowned. Why was his voice so unpleasant? !

“The canteen is the easiest job in this spirit stone mine. If I didn’t see that you’re new here, you wouldn’t have such a good job.”

“If you can make me happy, you can always stay in the canteen. If you’re stubborn, Humph, then go to the mine to mine!”The leader reached out his hand to touch Yun Chujiu’s face.

Yun Chujiu leaned to the side and said submissively, “You must be joking, sir. The three of us have always been stubborn. Otherwise, we wouldn’t have fallen to such a state.”
