

The Yun Family's Ninth Child is an Imp! Chapter 2380

During dinner, everything was as usual. However, those who paid attention would notice that some miners' hands were slightly trembling, and some people's expressions were faintly showing excitement.

The burly man seemed to be rough, but he was as meticulous as hair. He moved closer to the old man and was about to speak, but the old man shook his head. The burly man had no choice but to hold back his words.

The few leaders gathered together to eat because their meals were all prepared separately by the small stove.

Tonight's meal was exceptionally sumptuous. Everyone giggled and thanked the canteen manager.

The Canteen Manager didn't pay attention to the dishes when he was preparing dinner. Now that he saw that the dishes were so sumptuous, he couldn't help but curse in his heart. These wastrels actually made so many delicious dishes. These were all his spirit stones!

However, since they had already made them, he couldn't ask them to take them away. He could only grit his teeth and say, "Everyone, everyone has worked hard recently. This banquet is my treat."

A few of the leaders laughed and exchanged a few pleasantries. One of them even took out a wine jug and said, "It's a pity that such a good meal doesn't match the wine. Come, drink less. It's fine."

Everyone had not touched alcohol for a long time, so they did not object. Everyone began to eat and drink.

When Yun Chujiu brought the people from the canteen to the shed, the people inside were already drunk. They thought that it was because of the alcohol, but in reality, it was because of the Netherworld in the food that had taken effect.

Yun chujiu did not say anything. She gave them a look, and everyone rushed forward to send them on their way!

The people from the canteen did not expect things to go so smoothly. They killed all these people just like that? Why did it feel like a dream?

Yun Chujiu took off the storage rings of the leaders and found a few tokens from them, she handed them to them and said, "Follow the plan. Don't leave any guards alive! Don't touch the old man and the big man. They are not a hindrance to us."

"Yes!"

Everyone split up and began to move. Yun Chujiu and the other two led the remaining people straight to the mining area.

Yun chujiu had already observed that the fan family would only come to collect the ores once every month. Therefore, there was a large piece of empty land in the mining area that was filled with the mined spiritual stone ores.

Although the spiritual stone ores were not finished products, they could be considered as spiritual stones in the market after a little processing. It could be said that the ores were money!

Yun chujiu was well aware of the bad nature of people. There was a possibility that someone would take advantage of the chaos and take the spiritual stones for themselves. Then, the matter of the people defecting to the Cao family would be wasted.

Therefore, Yun Chujiu and the other two brought the people from the canteen to collect the spiritual stones and ores first.

Of course, there were people guarding the spiritual stones and ores. However, because they felt that these miners did not have the courage to resist or steal the spiritual stones, they only arranged five people to guard the spiritual stones and ores.

Among the five people, three of them had already rested, and only two of them were yawning and chatting.

Yun Chujiu and the others took care of the five people without much effort, Yun Chujiu put all the ores into her storage ring. "Everyone, don't worry. Once the obstacles are cleared, I will distribute the spiritual stones and ores equally to everyone. Otherwise, someone will be greedy and ruin our plan."

Seeing that Yun Chujiu had said so much, the people in the canteen naturally couldn't say anything more.

At this time, the sounds of killing could be heard everywhere, and everyone began to take action.

There was almost no suspense about the process and the result. The number of miners here was more than a hundred times that of the guards. In the past, they only dared not to resist because they were intimidated by the threat of the fan family.

But now, once they erupted, their destructive power was astonishing.

In just over an hour, the miners had completely taken control of the spirit stone mine.
