

The Yun Family's Ninth Child is an Imp! Chapter 2382

Yun Chujiu didn't waste any time and directly summoned the flying spirit tool. Everyone got on the flying spirit tool and flew towards the north.

Of course, before Yun Chujiu left, she also gave a big gift to the fan family, which was that this guy poured rapeseed oil on the sheds and then lit them on fire.

This guy was afraid that the fire was not big enough, so he got a lot of firewood from his storage ring and poured rapeseed oil on the ground to light them up.

This guy even shook his head and said, "I took a little bit of the fan family's ore and gave them a big fireworks display. That's all!"

Xue Wuji and the other three thought that the fan family would probably be so angry that they would vomit blood!

Xue Wuji and Jin Zhi finally understood why Yun chujiu let them take the disguise pill and why she made up three names so casually. It turned out that they were preparing for this moment.

Moreover, those miners had gone to the Cao family. The fan family would definitely blame the Cao family for this. The Cao family would naturally not admit to half of the mine. Then, the Cao family and the fan family would definitely fight to the death again, and she, the main culprit, would be safe and sound!

If one word could be used to describe it: damaged!

Two words could be used to describe it: really damaged!

Three words could be used to describe it: too damaged!

Fifteen minutes later, the members of the fan family arrived at the mine.

Although the fan family was nearly a hundred Li away from the mine, they could still hear the faint sound of the explosion in the middle of the night. Bai Li and the other members of the fan family were shocked.

The head of the fan family immediately sent people to contact the leaders of the mine, but they were shocked to find that the sound transmission talisman could not be sent out. This meant that something had happened to those people!

The Spirit Stone mine was the support of the fan family, so no one dared to neglect it. The important figures of the fan family hurriedly flew to the mine on their flying spirit tools. On the way, they saw the fire in the mine soaring into the sky. Their heads buzzed. Something must have happened!

By the time the fan family arrived, the fire had already spread. That was for sure. With the help of the rapeseed oil, it would be strange if the fire did not grow strong! A certain Jiu was born to be a fire girl, so she knew best how to light a fire.

The fan family members quickly put out the fire. The fan family had already prepared for the worst, which was that the miners would escape with the ores that had already been mined.

However, they felt that it was still bearable. After all, those people wouldn't be able to escape from their grasp. Once they were captured, the spirit stone mine would naturally be found.

As for the destroyed sheds and the dead guards, it did not matter. As long as there was a spirit stone mine, there would be an endless supply of spirit stones. They would just have to rebuild or recruit more guards.

However, when the fire was extinguished, the leader of the fan family's guards almost crawled in front of the head of the fan family. "Family, family head, something has happened!"

The head of the fan family wished he could kick him away. Wasn't this nonsense? ! If nothing happened, why would they come here in the middle of the night?

The leader of the guards finally managed to reorganize his words, "Family, family head, the Spirit Stone mine has been lost!"

"Mm, this is already within my expectations. The mined ores will naturally be stolen by the miners. You are the leader of the guards, how can you be so useless in the face of such a situation? !"The head of the fan family said unhappily.

The head of the guards was about to cry, "Family head, it's not the mined ores, it's the mine. Half of the mine has been stolen!"

"Nonsense! How can a perfectly fine mine be stolen? Could it be that the mine has legs?"A young master of the fan family scoffed.

The head of the fan family also frowned. He felt that this was impossible, but when he thought of the explosion he heard earlier, he immediately had a bad feeling.
