

The Yun Family's Ninth Child is an Imp! Chapter 2384

The Old Man's face was a little unnatural. He didn't mean it that way, but what the little girl said made sense. He could only close his eyes and start to calculate.

After a while, the old man opened his eyes. His face was a little pale. Apparently, this calculation had consumed a lot of spirit energy and physical strength.

"Little girl, it's really difficult for us to get through this place safely unless we take a detour by water."
"Bai Li to the east is the Chenlan River. It's said that there are many high-level aquatic demon beasts inside, and they are prohibited from flying. We can't even use talismans."

"By water? Anyway, I have a boat, so let's take the water! The demon beasts are much cuter than the fan family!" Yun Chujiu waved her claws and signaled Xue Wuji to fly in the direction of the Chenlan River.

Although the people on the flying spirit tools in the distance had already seen Yun Chujiu's flying spirit tools from afar, they didn't care too much when they saw that they had changed their direction. Anyway, there were people intercepting them on the ground and in the sky. If they were the people that the fan family wanted to capture., they wouldn't be able to escape.

After a quarter of an hour, Yun Chujiu and the others landed on the bank of the Chenlan River. No one had set up an ambush here. This was because the people nearby knew that flying was prohibited near the Chenlan River. They could only fly by taking a detour.

Yun chujiu looked up and saw that the surface of the Chenlan River was very wide. Moreover, it was moving in the east-west direction. They only needed to follow the current down and get out of the fan family's sphere of influence before going ashore. Then, they could take a detour back to Xingtian Academy.

However, when she swept her gaze across the three big words "Chenlan River" on the stone tablet that was erected at the side, her heart was filled with anger. Her mother's name was ye Lan, but this river was called Chenlan River. It was really F * cking unlucky!

When Yun Chujiu thought of this, she kicked the stone tablet. Yun chujiu thought that the stone tablet must be very strong, so she used all her strength.

Unexpectedly, this stone tablet might have been older than time. When Yun Chujiu kicked it, the stone tablet was immediately knocked over. A certain Jiu who was miserable almost fell to the ground because she used too much strength.

Xue Wuji and the others almost laughed out loud. Was this guy crazy? Why did he kick the stone tablet for no reason?

A certain Jiu felt very embarrassed. She took out her large kitchen knife and started to cut the stone tablet. Alright, this guy already subconsciously thought that the large kitchen knife could cut anything.

A cut was made on the stone tablet. Just as Yun Chujiu was about to continue cutting, she realized that the center of the stone tablet was actually hollow. There seemed to be something hidden inside.

Yun Chujiu's eyes lit up. This fortune could not be blocked even if it came. Could it be that there was a treasure map inside?

Yun chujiu carefully cut the stone tablet in half and saw a beautiful jade box inside.

Yun chujiu was extremely excited. The box was so beautiful. There must be a treasure map or some good treasure inside!

This guy excitedly opened the jade box and could not help but be disappointed when he saw what was inside. It was not a treasure map, but a water repellent bead.

The old man exclaimed, "Oh my God! It's the legendary water-repellent bead! Little Girl, you've gotten a great deal!"

Yun chujiu forced a smile, thinking that she had plenty of this damn thing. Moreover, this one was white, and she had a red one in her hand!

Even the water-repellent bead in Xue Wuji and Jin Zhi's hands was much bigger than this one, so the two could only pretend to be surprised and agree at the side.

The two thought to themselves, "Not everyone can pretend to be a pig to eat a tiger. They clearly have something good in their hands, but they can't show it off. It's really painful!"
