

The Yun Family's Ninth Child is an Imp! Chapter 2387

Yun chujiu immediately recounted what had happened. Even if the old man was a spirit Master Yan, he still couldn't come up with a reason. Perhaps that bloodthirsty finless porpoise had something urgent and changed its mind?

It seemed that only this explanation could make sense. That bloodthirsty Porpoise was a level 40 aquatic demon beast. It couldn't possibly be afraid of a little girl at the third level of the Lingxuan realm, right?

What Yun Chujiu didn't know was that on the way the bloodthirsty finless Porpoise escaped, it encountered some aquatic demon beasts.

When those aquatic demon beasts saw that the bloodthirsty finless porpoise was running for its life, they couldn't help but panic. Could it be that there were some high-level demon beasts chasing after it?

Thus, they all followed it and ran!

When the bloodthirsty finless porpoise saw that those demon beasts were also running for their lives, it was even more certain that the human little girl wasn't simple. Otherwise, why would these demon beasts also run for their lives?

It had to be said that this was a wonderful misunderstanding. For two days in a row, Yun Chujiu and the others did not encounter even a low-level demon beast, let alone a high-level aquatic demon beast. It was as if the Chenlan River had turned into an empty river in an instant.

Yun chujju looked at the old man with a look of disdain. “Didn’t you say that there are many high-level aquatic demon beasts in the Chenlan River? Why is there nothing except for that bloodthirsty finless porpoise that is not in good spirits?”

The old man was also very puzzled. Did something happen to the aquatic demon beasts in the Chenlan River? Were they all extinct?

This situation did not change until they left the territory of the bloodthirsty finless porpoise. Some low-level aquatic demon beasts began to appear.

However, these low-level aquatic demon beasts felt the pressure released by the crowd and did not dare to go forward to harass them until a water line swam over from afar, the old man exclaimed, “Do you see the flashing electric arcs? It’s the bloodthirsty electric eel! This is bad! The bloodthirsty electric eel is the most troublesome aquatic demon beast in the Chenlan River! It can discharge electricity and has a fierce temperament...”

Before the old man could finish his words, he heard a thump. A certain Jiu had already jumped into the water impatiently and dived into the water in the blink of an eye.

The old man was so anxious that he stomped his feet. “Nonsense! What nonsense! That’s the bloodthirsty electric eel! Isn’t she going to die? !”

Jin Zhi did not make a sound. That fellow loved lightning the most. If the bloodthirsty electric eel met her, it was not necessarily someone who was unlucky!

The reason why Yun Chujiu could not wait was to test the power of the white cloth strips. Although this fellow also felt that it was a little unbelievable, he had to have a dream. What if it came true!

Therefore, the fellow went into the water and began to wave the white cloth strip at the bloodthirsty electric eel that was swimming over in the distance. he shouted, "Master electric eel, don't do anything yet. I'm here to Die!"

The bloodthirsty electric eel saw the white cloth strip in Yun Chujiu's hand and then heard Yun Chujiu's shout. It was also confused. Was this little girl sick?

However, the bloodthirsty electric eel was obviously more courageous than the bloodthirsty finless porpoise. It felt that it could shoot electric arcs, so it was fearless.

It looked at Yun chujiu with disdain and shot an electric arc at Yun Chujiu.

F * ck!

So the white cloth strip was not working!

It seemed that the bloodthirsty dolphin was really mentally ill!

Yun Chujiu's mind was only thinking about the white cloth strip, so she did not dodge at all. She was hit by the electric arc.

The bloodthirsty electric eel saw this, and the disdain in its eyes became even more intense. It seemed that this little girl was really mentally ill. She did not even know how to Dodge. If this electric arc were to go down, she would be electrocuted and faint! At that time, it would be able to satisfy its craving. It had not eaten a human for a long time!
