

The Yun Family's Ninth Child is an Imp! Chapter 2395

The classroom of the first grade's Star class was eerily quiet!

Each and every one of them had a big mouth. They felt that they had received a critical blow!

Their worldview had received a serious blow. Didn't they say that cultivation should be done step by step? Didn't they say that each level required time and effort to break through?

Then, how could they explain the three perverts in front of them? One had risen three levels, one had risen four levels, and one had risen six levels in an instant. It was simply unbearable!

They were like pregnant women who were pregnant for ten months. These three perverts were amazing. They were like an old hen laying eggs. PFFT, one, PFFT, another one. It was simply too easy, wasn't it? !

Originally, these three perverts'spiritual power levels were at the bottom of the class of stars. But now, Xue Wuji had suddenly become the one with the highest spiritual power. Even Jin Zhi had reached the intermediate level, and this was only the duration of one class.

Not to mention the students, even teacher Du was stunned. This was too unbelievable, wasn't it?

Soon, the news of Yun Chujiu and the other two breaking through spread throughout Xingtian Academy.

Someone guessed, "The three of them might have had some good fortune in the divine ax heavenly pit. Otherwise, they wouldn't have broken through so many levels right after returning."

"Eh? What you said makes sense! If they were talented, why didn't they break through before? It seems like they really got a good fortune in the Divine ax heavenly pit. This is really a blessing in disguise."

"This is a blessing in disguise for good people. It's probably a blessing from God. The three of them saved hundreds of people!"

..

The three people who were being discussed by the crowd arrived at the law enforcement office.

Yun Chujiu said to a teacher of the law enforcement office with a smile, "Teacher, I'm looking for teacher Pang for an important matter. Can you help me pass the message?"

The teacher smiled and agreed. He walked to a room inside and asked a few questions. Then, he said to Yun Chujiu and the other two, "Teacher Pang asked you to come in."

After Yun Chujiu and the other two entered the room, they saw teacher Pang sitting behind a desk, dealing with official business.

“Why are you looking for me?” Teacher Pang raised his head and asked.

Yun chujiu giggled, “Teacher Pang, do you still remember what you promised me in the entrance exam? Let me give you a reminder, the night pearl?”

Teacher Pang was stunned at first, then he laughed out loud. “You Little Girl, you’re really a money-grubber!” Although there were mistakes in the entrance exam this time, the students who ranked higher still had rewards. What? “You collected a lot of shell fragments of the Heaven Punisher Divine Axe?”

Yun chujiu raised her head proudly. “Of course. I’ve collected all the stone egg fragments that Xue Mo is hiding in. There are at least a few hundred of them.”

“Oh? If that’s the case, then leave it to me. I will register it.” The outer shell fragments that the others had collected had already been handed over to the law enforcement department. They had already finished registering it.

Yun chujia nodded. She sent her spiritual sense into the storage ring. Then, the fellow's expression changed.

"Damn it! Where are my fragments? Why are my fragments missing?" Yun chujia searched every corner of the storage ring. She could not find a single thing. Those fragments had strangely disappeared!

Yun chujia immediately thought of the heaven and earth furnace that had a criminal record. She used her spiritual sense to inquire about it. Although the heaven and earth furnace couldn't speak, the emotions it conveyed were very aggrieved. It meant that it hadn't eaten any SH * t fragments.
