

The Yun Family's Ninth Child is an Imp! Chapter 2406

Mayor Huang thought about it carefully. It seemed that everything started when he mentioned Old Master Ye. That little girl first asked him for a greeting gift, and after extorting a fragment of the great void mirror from him, she took the opportunity to call him great grandfather Huang.

After that, she made him wear a high hat, and he was tricked into becoming her protective umbrella..

The more mayor Huang thought about it, the more aggrieved he felt. He was the grand mayor of Heavenly Luo City, yet he was tricked by a little girl. It was a great humiliation!

No, he must find a chance to get back at her next time!

Yun chujiu naturally did not know the resentment in mayor Huang's heart. Of course, it did not matter even if this guy knew. After all, she had obtained the fragment of the Great Void Mirror!

This fellow counted with his fingers. She already had seven fragments of the great void mirror. As long as she found another one, the repair of the great void mirror would be completed. At that time, she would become the only person in the immortal Yuan continent who possessed a divine artifact. Just thinking about it was awesome!

Although this fellow could not wait to fuse the fragment of the great void mirror with the Great Void Mirror, it was not the time yet. He could only wait until he returned from the Ye family.

Yun chujia hopped to the entrance of the mayor's residence. Ye Bingyu and the ten guards were waiting anxiously.

"Little Jiu, mayor Huang didn't make things difficult for you, right?" Ye Bingyu asked nervously.

Yun chujia smiled and shook her head. "Why would great-grandfather Huang Make Things Difficult for me? He even asked me to come to the mayor's residence more often in the future!"

Ye Bingyu: "..."

What the hell was great-grandfather Huang? Where did he come from? Could it be that Mayor Huang was the long-lost brother of great-grandfather?

Even after the two of them left the city and got on the Flying Spirit Tool, Ye Bingyu still couldn't figure out how this great-grandfather Huang came about.

Yun chujia naturally wouldn't tell her in detail. After all, it involved the fan family's mine. She only said that Mayor Huang saw that she was smart and smart, so he decided to protect her in the future.

Although ye Bingyu felt that the matter was somewhat strange, she felt that it was normal for anything to happen to this pervert, so she did not continue to ask.

Four hours later, the flying spirit tool arrived at the Ye family.

Old Master Ye felt that it was fortunate that his old heart was still healthy. Otherwise, this great-granddaughter would be dead and alive. She would definitely suffer from illness.

Old Master ye naturally made some inquiries and asked housekeeper Fu to arrange a welcoming banquet at the dining hall.

After Yun Chujiu came out of Old Master Ye's study, she went straight to Shaohua Garden.

Four maids and two old ladies were waiting at the entrance of the courtyard, looking very respectful.

Yun chujiu waved her hand and entered the courtyard.

There were no changes in the courtyard or the house, and the house was very clean.

The news of Yun Chujiu's safe return naturally reached the ears of Ge Shi, Liu Shi, and the others, especially Liu Shi. She even received a voice transmission talisman from her big brother, which recounted the story of how Yun Chujiu extorted money from Liu Jinluan.

Liu Shi was so angry that she gnashed her teeth. Ye bingying, who was at the side, said coldly, "Mother, we can't Let Yun Chujiu Live. You must think of a way to kill her."

Liu Shi sighed. "Why wouldn't mother want to kill her?"? However, the person that Xingtian Academy arranged was so unlucky that he was struck by lightning. He felt that this was a warning from the heavens. No matter what, he wouldn't dare to harm that Little B * Stard!"

"What nonsense! Mother, then should we just let it go? Not only did she humiliate me, but she also humiliated Jin Luan. Are We just going to let her be arrogant like this? If she was allowed to continue like this, I think, maybe the second branch will ride on top of our Big Branch!"Ye Bingying said with a sneer.
