

## The Yun Family's Ninth Child is an Imp! Chapter 2414

After the old doctor left the courtyard, he heard Liu Shi shout, "Doctor Deng, did they get an infectious disease or something?"

Liu Shi was afraid that the old doctor had something infectious on him, so she could only shout.

The old doctor remembered what Yun Chujiu said just now, and he couldn't help but feel a little disgusted with Liu Shi's behavior. He had planned to say it lightly, but now he said,

"They are infected with the juice of the willow leaf ant grass, so they have a rash on their bodies. Normally, those rashes are not contagious, but they have already scratched the rash. The yellow water inside is contagious, so it's better to isolate it."

When Liu Shi heard the doctor's words, she could not help but take a few steps back. "Doctor Deng, how long will it take to recover?"

"It depends. At least ten days or half a month. If the situation doesn't go well, a month is also possible," the Doctor said indifferently.

A certain jiu, who was eavesdropping in the yard, couldn't help but curl her lips. This old man still knows how to play freely. Not Bad!

This guy had already decided when ye Xinwan and her daughter would leave her and return to Xingtian Academy, so as to prevent the yard from being occupied. As for Xingtian Academy, Jin Zhi was usually there to help record the content of the lessons, so they could just listen to it when they returned.

This fellow was completely not worried that Xingtian Academy would not approve the holidays. Otherwise, wouldn't the three-eyed purple-tailed iron-clawed Eagle's inner core be given away for nothing? !

Moreover, even if Yun Chujiu wanted to go back to school, the people of Xingtian Academy would probably not let her go back even if they heard that she was in danger of infecting others.

Liu Shi asked the old doctor about some other matters before paying the consultation fee and sending people to the pharmacy to get the medicine.

Liu Shi turned around and went to the guest house where ye Xinwan and her daughter were staying. She told Yun chujiu about what had happened.

Ye Xinwan frowned. "Is that doctor reliable? could he be working with that little B \* tch to deceive us?"

"Xinwan, don't worry about that. Doctor Deng is famous for his bad temper. It's impossible for that Little B \* Tch to bribe him,"Liu Shi explained.

“Humph! It’s really too easy for her! In that case, let’s stay here!”Ye Xinwan said unhappily, she originally thought that she could take the opportunity to teach that little B \* Tch a lesson. She did not expect that she would be able to avoid it twice in a row. It was really detestable.

Liu Shi smiled apologetically and said a few words, “I’ve already sent people to follow Doctor Deng to get the medicine. Perhaps she will recover in a few days. When the time comes, just let her move out.”

Fan suxue pouted at the side. “Mother, since that little B \* tch is disrespectful to grandmother, why don’t we do something to the medicine and make her face never recover?”

Ye Bingying’s eyes flashed with joy. When she was chatting with fan suxue just now, she had mentioned that Yun Chujiu’s appearance was very beautiful, and fan suxue was indeed jealous.

When ye Xinwan heard fan suxue’s words, not only did she not reprimand her, she instead said, “Suxue is right. We can not be merciful towards such a little B \* TCH. Let’s see how she can be arrogant in the future after destroying her appearance!”

Liu Shi said in a troubled manner, “But, what if the old master finds out? That B \* Tch is now quite popular with the old master.”

“It’s okay. I don’t believe that grandfather would make things difficult for me over a B \* Stard.”The more Liu Shi said this, the more ye Xinwan was determined to make a move. Back then, ye Lan had suppressed her everywhere, now, she would let her daughter have a taste of being disfigured.
