

The Yun Family's Ninth Child is an Imp! Chapter 2425

"Bingyu, your face... how did your face get destroyed?" Liu Shi's voice was trembling.

Ye Bingying looked down at her hand. It was already beginning to fester, just like fan suxue. When she looked in the mirror again, two spots of Fester appeared on her pretty face. With a scream, she fainted.

The guest house was once again thrown into chaos.

Ye Xinwan had originally thought that it was the servants of the guest house who had caused fan suxue's death. Now that she saw that ye Bingying's face was also disfigured, it seemed that it was not the servants of the guest house who had poisoned her. Then what was going on?

Liu Shi was more meticulous than ye Xinwan. After comforting ye bingying, she asked, "Did you and suxue touch any unknown spiritual herbs in the back garden? Or did you encounter anything unusual?"

Ye Bingying and fan suxue shook their heads repeatedly. They only sat in the pavilion in the back garden and didn't do anything else.

At this moment, a maid on the ground said in a trembling voice, "First madam, when the two young ladies were in the guest house's Courtyard, a group of spiritual bees once made some water droplets on their faces and bodies. Could it be the problem of those water droplets?"

When fan suxue heard what she said.., she immediately said in a flustered and exasperated manner, "There is indeed such a thing! Ye Bingying, it's all your fault! If you didn't have to call me to the back garden, would I have suffered such a calamity? ! At that time, I still had to go back to the house to wash my face. You were the one who stopped me. Why are you so calm?"

Although ye Bingying wanted to curry favor with the Ye mother and daughter, her heart was in a mess now. She immediately retorted, "When did you say that you wanted to go back to the house to wash your face? Didn't you also guess that it was fog?"

Moreover, it might not have been caused by those few drops of water! If you want to blame it, I'll still blame you! Perhaps it was aunt's whatever medicinal powder that accidentally got into some place that caused us to suffer!"

After ye Bingying finished speaking, her face instantly revealed a terrified expression.

Fan Suxue was stunned at first, then she went to beat ye bingying like crazy. "You're talking nonsense! It's impossible! It's definitely impossible! It's just that matter of fog. It definitely won't be the salt-free powder! It definitely won't be!"

Ye Xinwan's head buzzed. At first, it was painful and itchy, and then it began to fester. This, this was indeed the exact same symptoms as the salt-free powder's attack.

She raised her head to look at the Fester on Fan Suxue's face. Her legs were so weak that she couldn't even stand. Fan Suxue's appearance was exactly the same as the wounds she had caused in the concubines. This was caused by the salt-free powder.

The more ye Xinwan thought about it, the more terrified she became. Her eyes rolled back and she fainted.

Immediately, the guest house was in a mess. Some went to pull the fight, and some went to wake ye Xinwan up. There were also more than ten servants who were tied up on the ground.

After Old Master Ye received housekeeper Fu's report, he also rushed over.

Although he did not show up when Yun Chujiu was in trouble, he could not not come when something happened to fan suxue because he was afraid that the fan family would vent their anger on the Ye family.

After old master ye arrived, the chaotic situation in the guest house was finally alleviated.

Old Master Ye was also shocked when he saw the wounds on fan suxue and ye Bingying's faces. He asked the two of them what happened.

Ye Bingying told them what happened. Of course, she was not stupid enough to say that there was no salt powder or anything. She only said that they had wandered around the back garden and it became like this.

Fan suxue insisted that it was caused by those spirit bees. She blamed ye Bingying for causing her to become like this.

At this moment, ye Xinwan also woke up. Although she felt that there was a high chance that fan suxue had been poisoned by salt-free, she still had a glimmer of hope in her heart. She hoped that after doctor Deng examined her, he would come to another conclusion.
