

The Yun Family's Ninth Child is an Imp! Chapter 2429

Doctor Deng saw how courteous Old Master Ye was, he could only nod and say, "Old Master Ye is too courteous! This old man is a doctor, so I naturally have to do my best to treat the patient. When this old man returns, I will do my best to develop an antidote for the salt-free powder."

Old Master Ye nodded and asked housekeeper Fu to send doctor Deng back. He also gave him a generous consultation fee.

Old Master Ye glanced at the few people in the room and sighed in disappointment.

There was no need to mention ye Xinwan and her mother. The one who disappointed and pained him the most was ye Bingying. He originally thought that she was the hope of this generation of the Ye family, but he did not expect her heart to be so vicious.

He did not object to competition between his peers. Even if he used some small tricks, he did not care. After all, the fittest survived. Only competition could choose the strongest.

However, Ye Bingying was not competing or suppressing. She was taking someone's life. Even if such a person really had a future, she would not consider the interests of the family. She would even sacrifice the interests of the family to pave the way for herself.

Old Master Ye's gaze seemed to have substance. The oppression made everyone in the room tremble in fear. Even the most arrogant fan suxue was a little afraid to speak.

“Xinwan, what do you plan to tell the fan family about today’s matter?” Old Master Ye stared at ye Xinwan and asked.

Ye Xinwan was a little muddled by the question. “Grandfather, what else can I say? Naturally, I’ll tell the truth. I still want my husband to help search for the godly doctor.”

Old Master Ye slammed the table. “Extremely muddle-headed! The fan family is currently in a terrible state. What do you think will happen after you tell these terrible things? If things go wrong, even Mingchuan will be implicated by you!

Furthermore, why do you have salt-free powder? Is it used in the past to do some shady and private things? If you tell them, what will fan jiquan think?”

Ye Xinwan’s face turned pale. She did not really care about what old master ye said earlier, but the latter sentence, that’s right. If this matter was told to fan jiquan, he might find an excuse to divorce her.

Fan suxue said unhappily at the side, “Then what should I do? Don’t tell the fan family that my face is disfigured?”

“There is no antidote for salt-free powder. Do you think it will be useful even if you tell the fan family?” Old Master Ye was extremely displeased with fan Suxue. If it weren’t for this troublemaker, Little Nine and Bing Ying wouldn’t have been disfigured.

Ye Xinwan was completely flustered. “Grandfather, then, then what should we do? You must save my Suxue! If her face is ruined, her life will be over!”

Old Master Ye snorted coldly. “If Suxue’s face is ruined, her life will be over. Why didn’t you think of this when you secretly harmed little nine?”

Ye Xinwan wanted to argue a bit, but now she had to beg Old Master Ye, so she could only endure it.

“How about this, Xinwan, you secretly inform Mingchuan about this matter and let him think of a way to help you find a famous doctor. I will also send people to keep an eye on doctor Deng’s side. Since he already has a clue about the antidote, perhaps he will really develop it,” old master ye said.

Ye Xinwan nodded repeatedly. Old Master Ye was right. It would be good to secretly tell Mingchuan about this matter. He handled things steadily and would definitely have a way.

Great-grandfather ye sighed and left with a flick of his sleeve.

The atmosphere in the room instantly froze, ye Xinwan looked at Liu Shi viciously. "Sister-in-law, if Su Xue's face can be cured, I'll pretend that this matter never happened. If her face can't be cured, I won't be done with you! Not only you, the Liu family can forget about it!"
