

The Yun Family's Ninth Child is an Imp! Chapter 2434

Just as Old Master Ye was about to flare up, he heard Yun chujiu say, "Sigh, I also know that you're in trouble. After all, you're the head of the Ye family. There are many things that you can't help. I understand all of them.

"Actually, I feel that doctor Deng might be able to develop an antidote for salt-free powder.

"What if he can't develop it? Then I can only wear a veil and hide far away from him in the future. When that time comes, I'll enter a super sect like the primordial chaos sect. No matter how long the fan family's hands are, they can't do anything to me."

Even though Old Master Ye's anger had dissipated a little., he still said unhappily, "Is the primordial chaos sect something that you can enter just because you want to? "Even though your breakthrough speed isn't bad, the sixth level of the spiritual profound is still too weak! "Bingying is at the third level of the spiritual void tier, and she can only barely enter the outer sect."

"Everything depends on man! Who knows, she might accidentally enter! Besides, perhaps doctor Deng will be able to develop an antidote for the salt-free powder! At that time, won't everyone be happy?!" Yun Chujiu said indifferently.

Old Master Ye felt his head buzzing. He felt that if he continued to tangle with this little girl, he would definitely be angered to the point of vomiting blood. However, he could not find any fault with her.

Yun chujiu obviously knew that old master ye was being scolded badly. However, she was never a steamed bun who swallowed her anger. Could it be that she was poisoned by someone and was still grateful? She was not sick!

Great-grandfather ye saw that he could not get anything out of her, so he could only say, "You stay in Shaohua Garden obediently. I will send someone to guard the courtyard to prevent others from coming in, so that you won't be exposed."

"Thank you, great-grandfather! Don't worry, a good person will have his blessings. Doctor Deng will definitely develop a salt-free antidote," Yun Chujiu said with a smile.

Great-grandfather ye gave a perfunctory reply and left with housekeeper Fu.

Not long after old master ye left, doctor Deng arrived.

Doctor Deng was about to speak when Yun Chujiu said with a smile, "Old Miracle Doctor, let's go to the spirit peach forest over there and talk. It's quieter there."

Doctor Deng understood that he was afraid that the walls would have ears, so he nodded and the two of them arrived at the Spirit Peach Forest.

Doctor Deng then said, "Miss Yun, do you know that Miss Fan and Miss Ye were both poisoned by salt-free powder?"

Yun chujiu nodded. "I heard from great-grandfather."

"Old Master Ye also knows that you weren't disfigured?" Doctor Deng asked in surprise.

Yun chujiu curled the corners of her lips. "Well, it was only a matter of time, so I told him. TSK TSK, Old Miracle Doctor, do you think this is karma? "They wanted to poison me. I'm fine, but they were poisoned themselves. How interesting."

Doctor Deng felt that Yun Chujiu's words had a hidden meaning, but he couldn't figure out what it meant.

He remembered the meaning and quickly took out a wooden box from his storage ring. "Miss Yun, the spirit herbs in this are too valuable. You should take it back! I'll take the other wooden box."

Doctor Deng had also unintentionally opened the wooden box that Yun Chujiu had given him last night. He opened one of the boxes and saw that there were a few earth grade and mystic grade spirit herbs in it, so he didn't pay too much attention to it.

But when he opened the other box, he was stunned. Inside was actually a low-grade heaven grade purple dragon vine. This was too valuable.

That was why doctor Deng had rushed over so early in the morning.

Seeing that doctor Deng insisted on returning it, Yun Chujiu didn't say much. She saw that the wooden box was kept. After all, the formula for the salt-free powder was much more valuable than this spirit herb.
