

The Yun Family's Ninth Child is an Imp! Chapter 2449

The expression on ye Xinwan's face changed a few times. Then, she glared at Yun chujiu and said, "I will naturally settle the score with them. You Won't be able to escape either! Let's wait and see!"

"Aunty, let's not talk about waiting and see. Even if I run, I will accompany you. However, those who go against me usually don't have a good ending. You have to be careful!" Yun Chujiu said indifferently. Of course, she would not naively think that a few words from her would be enough to make ye Xinwan abandon evil and become good.

Ye Xinwan looked at Yun Chujiu's beautiful face and wished that she could destroy it immediately. However, she also felt that today's matter was too strange. If she were to find fault with it again, she was afraid that it would not end well for her.

Just as ye Xinwan was in a dilemma, old master ye rushed back.

Old Master Ye had already prepared himself for the worst on the way back. He felt that Yun chujiu was most likely going to suffer. Especially if ye Xinwan found out that she wasn't disfigured, her life would be in danger!

Old Master Ye saw from afar that the courtyard wall of Shaohua garden had collapsed, and there were more than ten people lying on the ground.

It's over! It's over!

Those lying on the ground must be the ye family's guards. Little Jiu must have been killed!

Old Master ye sighed repeatedly. He hurried over but didn't expect to come back late.

Housekeeper Fu, who was at the side, said in surprise, "Old Master, those lying on the ground seem to be the fan family's guards. They aren't our ye family's guards."

Old Master Ye took a closer look. It was really true. How was this possible? The fan family guards were much more powerful than their ye family guards.

Old Master Ye came closer and saw that Yun Chujiu had already taken off her veil. There were no signs of injury. On the other side, ye Xinwan's hair was still dripping with water. Her clothes were also full of water stains. What on Earth was going on?

Yun Chujiu saw Old Master Ye and her eyes immediately turned red. "Great-grandfather, you're finally back! Aunt wants to kill me. I was scared to death!"

Everyone present looked at Yun chujiu with a dumbfounded expression. It was rare to see someone so Shameless!

Especially the guards of the fan family. They were all lying on the ground. When they heard Yun Chujiu's words, they spat out another mouthful of blood and fainted again.

Ye Xinwan was so angry that she gritted her teeth. "Grandfather, don't listen to her nonsense!"

Yun chujiu wiped her tears with her sleeve. "How am I spouting nonsense? Aren't you here to kill me? Didn't your people cause my courtyard wall to collapse? Didn't you threaten me just now? Let Me Wait and See?"?

"If it weren't for my good luck, I might have turned into a corpse by now. "You're my biological aunt. Don't you feel sorry for your conscience by treating me like this?"

Ye Xinwan could not utter a single word. Yes, she was indeed here to kill this little B * stard, but why was it that in the end, not only were the guards of the fan family heavily injured, even Su Xue was beaten half to death, why was this so?

Old Master Ye was clearly a little dumbfounded as well. He could only beckon the little commander to come over and ask about the situation.

The little commander hated ye Xinwan to death now, and his favorable impression of Yun chujiu rose rapidly. Thus, in the process of narrating, he could not help but slightly refine it.

Great-grandfather ye's expression was uncertain. On one hand, it was because he was displeased with ye Xinwan and her mother. On the other hand, he was very curious about how Yun Chujiu did it. As for what kind of retribution, great-grandfather ye naturally did not believe it.
