

The Yun Family's Ninth Child is an Imp! Chapter 246

Everyone thought of Yun Chujiu's room that had been struck by the heavenly lightning!

It was too terrifying to be targeted by it!

Could the person that the heavens wanted to kill still live? The answer was obvious. Yun Chujiu had been targeted by so many heavenly lightning before she could even cultivate. If she could cultivate, would she not be turned into ashes very soon?

Master Xuanyuan frowned. "Yun Chujiu didn't show any other talent. Maybe Yun Chujiu doesn't have the heavenly lightning root spirit, but just an ordinary lightning root spirit!"

Elder Qi sighed and said, "Master, Yun Chujiu has other talents. She has a photographic memory!"

Elder Qu added, "And she speaks eloquently. Didn't she fool those Mighty Elephants a few days ago? How could an ordinary person do that?"

Elder Xiao frowned, "Yun Chujiu is good at taking advantage of opportunities. Her victory over Su Yanran a few days ago is a typical example. I wonder if being sinister and cunning is considered talent!"

Master Xuanyuan silently added in his heart. 'This fellow is also extremely greedy and has cheated me of many things!'

"Although what everyone is saying can be considered talent, it isn't too heaven-defying. Why don't we observe first? If she really has the heavenly root spirit, we will tell her the whole story and let her decide whether to continue cultivating or not! Everyone, the matter of a heavenly root spirit is truly inconceivable. Everyone, please keep it a secret!" Master Xuanyuan said after thinking for a moment.

Everyone did not have any other good ideas to handle it, so they nodded their heads in agreement.

Yun Chujiu did not know that she had already become the focus of attention. She took the Spirit Stones and ran to Elder Qi's spirit herb garden, continuing to 'collecting' herbs.

She was already at the fifth level of the Spirit Cultivator realm. She was prepared to get more goods so that she could go to the alchemy room to refine spirit gathering pills.

Yun Chujiu 'borrowed' a lot of spirit herbs from the outer area and extended her evil hand to the high-level spirit herb garden.

Yun Chujiu carefully took a few leaves and then stopped. Elder Qi was keeping a close watch on the spirit herbs there. It would be bad if she was discovered!

The dormitory was still under construction, so she just happened to go to the alchemy room to stay for the night. Therefore, Yun Chujiu went straight to the alchemy room with a big sack on her back.

Manager Gao's head hurt a little when he saw Yun Chujiu's appearance. "Yun Chujiu, why didn't you go to Elder Qi's place to help? Why did you come here instead?"

"Manager Gao, I haven't refined pills for a long time, so my hands are a little itchy. Hurry up and give me an alchemy room. I'll finish this quickly and try to get out tomorrow morning! This time, I definitely won't release any poisonous smoke!" Yun Chujiu said with a smile.

Manager Gao braced himself and gave Yun Chujiu the jade token for room number 28. Yun Chujiu happily took the jade token and rushed to the room.

"Did you hear? Yun Chujiu came to refine pills again!"

“What? Do you know when she will leave? I’ll stay far away when that time comes! The poisonous smoke last time made my throat hurt for several days!”

“Manager Gao said that she’ll be done by tomorrow morning! At that time, we’ll just avoid her!”

“Yes! You’re right! I have to hurry up with my work. I will not stay in this damn place tomorrow morning no matter what!”

...

Yun Chujiu entered Alchemy Room No. 28. After opening the isolation array, she began to refine pills crazily.

The first batch was successfully completed. Not only was there a 100% success rate, but they were all super-grade pills with pill patterns.

After the strange grass in her Dantian smelled the fragrance, it immediately began to complain about its hunger. Therefore, Yun Chujiu swallowed a lot of spirit gathering pills while refining pills.

By midnight, Yun Chujiu had already turned a few sacks of herbs into a super-grade spirit gathering pills.
