

## The Yun Family's Ninth Child is an Imp! Chapter 2461

"I don't know that person! In my opinion, those people all look the same. Only you are different," Tian Dao Ya muttered.

"You can at least tell if they are students or teachers, right?" The corner of Yun Chujiu's eyes twitched. It turned out that Tian Dao was also face-blind.

"Teacher, he is wearing the teacher's clothes."

Teacher? Yun chujiu was in a dilemma. Xingtian Academy had hundreds of teachers. They couldn't possibly bring their portraits over for the Heavenly Dao Cliff to identify, right? Besides, the Heavenly Dao Cliff had face-blindness, so they might not be able to recognize them through the portraits.

Besides, although that person wanted to go down to the bottom of the valley, he might not be the one who destroyed the teleportation array.

Thinking of this, Yun Chujiu told the Heavenly Dao cliff to pay more attention and remember a few characteristics of that person next time. Then, she strolled out of the Heavenly Dao Cliff.

As Yun Chujiu walked, she thought about the destruction of the teleportation formation last time. Old Master Ye said that this matter had nothing to do with Ge Shi and Liu Shi. Then who was the one who instigated it? And who was the one who destroyed the teleportation formation?

Ye Xinwan?

Yun chujiu felt that it was unlikely. Although people like ye Xinwan were vicious, they didn't have any shrewdness and wouldn't use such a roundabout method.

Moreover, at that time, ye Xinwan had not been instigated by Liu Shi, so she should not have wanted to kill her.

Yun chujiu thought of the assassination she had encountered in the Hidden Tiger City. That person was wearing the clothes of the ye family, but it did not seem to be someone from the Ge Shi and Liu Shi. Could it be that someone from the Ye family wanted her life?

Perhaps it was a branch of the Ye Family? However, the branch of the Ye family did not have any conflict of interest with her, so there was no need to spend so much money to kill her!

The More Yun Chujiu thought about it, the more clueless she became, so she simply stopped thinking about it.

After returning to the dormitory, this guy seemed to be on steroids. He took out the talisman paper and began to draw the earth-shattering talisman.

Although she had already understood the pattern of the earth-shattering talisman by heart, she still failed the first two times. Halfway through drawing, due to the unstable output of spiritual power, the talisman paper turned into ashes.

Yun chujiu steadied her mind and started drawing the third time. This time, she succeeded!

boxn ov el. c o m

However, Yun chujiu shook her head discontentedly. "It's only a low-grade talisman. I still need to practice a few more times."

Fortunately, there were no outsiders present. Otherwise, if they heard what Yun Chujiu said, they would probably be so angry that they would vomit blood! She had already succeeded after drawing only three pieces, and you were still not satisfied? What a pervert!

Yun chujiu drew a few more pieces and finally succeeded in drawing a supreme-grade earth-shattering talisman.

This guy first showed off for a while, then he started to draw talismans crazily until the blank talismans in his storage ring were all drawn away. Only then did he stop, still not satisfied.

TSK TSK, this talisman-drawing was also addictive. It seemed that it was better to buy more talismans during the break.

Yun chujiu washed up briefly and took out the class schedule for each grade. The next afternoon, the second grade had an alchemy class, so this guy decided to continue his freeloading.

Firstly, she had yet to obtain the seven transformation life creation pill that she had promised the Mo family's great elder. Secondly, Guai Cao's mouth was becoming more and more crafty. He was already fed up with Yun Chujiu's existing pills and kept clamoring about being hungry.

Therefore, after taking an afternoon nap the next day, this fellow once again came to the second grade's Day class classroom.

As most of the students only chose to take the five techniques of cultivators, the students in the classroom were all unfamiliar faces. When they saw Yun chujiu, they were naturally extremely curious.

What was this little devil doing here? They heard that she had stirred up some trouble in the talisman seal class yesterday. was she also trying to stir up trouble in the Alchemy Class?

Why did she target the second grade? Why didn't she go to another grade?
