

The Yun Family's Ninth Child is an Imp! Chapter 2487

Yun Chujiu took a closer look at the so-called Tianluo Flower. It looked pleasing to the eye, but she did not know what kind of magical power it was. It was a flower in here, but it would turn into a stone when it went out. It was really magical.

Yun chujiu signaled Xue Wuji and the other two not to be in a hurry to pick the tianluo flower. She looked around and found three 35-level tianluo megalodon wolves behind a bush.

The reason why she was able to notice them was that her spiritual power was higher than theirs, and their teeth were long and white, reflecting the sunlight. It was difficult not to notice them.

Yun chujiu could not help but laugh, she waved her claws at the shrub. "Can your sneak attack be a little more technical? "Your long teeth have been exposed, and you still want to sneak attack us? "I advise you to get some mud on your long teeth or dye them with grass juice the next time you hide."

The three giant-toothed wolves in the bushes:"..."

They looked at their tusks, and sure enough, they did not seem to be in harmony with the surrounding bushes. Then, the question was, should they fight or run?

Although their spiritual power level was equivalent to that of a human at the eighth level of the Lingxuan realm, and the three humans on the opposite side were at the fifth, sixth, and seventh levels,

they had the upper hand. However, for some reason, they felt that this little human girl was a little strange.

They had never heard that humans would give them guidance before making a move. This girl was either sick or hiding some evil intentions.

The three giant teeth wolves could not make up their minds for a while, so they just stood there and did not move.

Yun chujiu could not be bothered with them. Anyway, even if Xue Wuji and Jin Zhi were stung by the giant teeth wolves, she and Dumb Meng could still take care of the three stupid wolves.

This guy was thinking about another problem. She could control the spiritual insects. Should she capture a nest of Tianluo poisonous bees to establish a temporary contract?

With these little things leading the way, it would be too easy to find the Tianluo Flower, right? ! It would be hard to even get first place, right? !

However, if that was the case, she had to avoid people's eyes and ears so that she would not be exposed.

Yun chujiu looked around, but there were no other students nearby. This guy decided to go for it!

The simplest way to contract this group of Sky Luo Wasps was to contract the queen bee first. Therefore, Yun chujiu whispered to Xue Wuji and Jin Zhi, "You guys attract the attention of the wasps. I'll go and contract the Queen Bee."

Xue Wuji and Jin Zhi told her to be careful. Then, they made a gesture to pick the sky Luo flowers to attract the sky Luo Wasps to attack them.

There were only five sky Luo flowers here, so the number of sky Luo Wasps was relatively small. Xue Wuji and Jin Zhi could hold on for a while. If they encountered a large group of Sky Luo Wasps, the three of them would not be enough.

Yun chujiu saw that most of the sky Luo Wasps had gone to attack Xue Wuji and Jin Zhi. Then, she jumped into the beehive on the short tree.

There were still a few worker bees left in the beehive. Yun Chujiu's solution to them was very simple. A big bag of chili powder that was emitting black smoke immediately made the worker bees dizzy and knocked them on the ground.

The queen bee in the Beehive was also choked by the poisonous smoke. Yun chujiu grabbed the stinger and knocked them unconscious with the kitchen knife.

Then, Yun Chujiu established a temporary contract with the Queen Bee, and everything ended.

The queen bee angrily ordered the worker bees to stop. It had also encountered some students who had gone through trials. The worst outcome was that the Tianluo flower had been taken away, but no one had ever had any designs on them, at most, they had only killed a few worker bees.

But now, it was F * cking destroyed!
