

The Yun Family's Ninth Child is an Imp! Chapter 2488

Yun chujiu took a large kitchen knife and cut a small piece of honey to taste it. eh? The taste was surprisingly wonderful. It was even better than the honey that she had gotten from Xingtian Academy.

The Queen Bee dared not to express her anger. She really did not know what this human little girl wanted to do. Could it be that it was just for the honey?

Yun chujiu shamelessly cut off a large piece of the hive, leaving only the part with the larvae.

The three Tianluo megalodon wolves behind the bushes craned their necks and looked curiously. This little girl was indeed full of evil. She actually used poisonous smoke to smoke those poisonous bees. It was really bad!

However, why didn't the Queen Bee know how to escape and resist? Could it be that she was blinded by the smoke?

Yun Chujiu gave the Beehive to Jin Zhi and Xue Wuji, one for each of them, then, she said to the queen bee, "Isn't it just to eat a little of your honey? Look at how stingy you are! As long as you listen to me obediently, I promise to upgrade your little beehive to a Super Big Beehive."

The queen bee looked at the few worker bees that were still dizzy on the ground, then looked at the big kitchen knife in Yun Chujiu's hand, and could only compromise and say, "What do you want me to do?"

“It’s very simple! You help us find the Tianluo Flower, and then you go and hook up with those worker bees to lure them into the encirclement. After killing them, we will split the honey equally.”Yun Chujiu said with a smile.

The queen bee fell to the ground with a thud and fainted due to anger.

Yun chujiu touched her nose. The psychological endurance of these demonic beasts was really too poor. They would faint at any time. It was really boring!

After the three Tianluo Gargantuan Wolves who were watching the show heard Yun Chujiu’s words, they looked at each other. Oh God, it was a good thing that they didn’t act rashly just now. Otherwise, their ending would be very miserable.

Just as they were rejoicing, they saw the little girl slowly walking towards them.

“Hey, three puppies, how about we do a business deal?”

Xue Wuji and Jin Zhi looked at each other. The three gargantuan wolves were probably going to be unlucky.

The three gargantuan wolves were on guard. They felt that this human little girl must be taking some bad water to do a business deal? What business! How could humans and Demon Beasts do business?

“Didn’t you ambush US just to eat? “As long as you listen to me, I promise to let you eat your fill. Do you want to taste the taste of honey?”Yun Chujiu took out a beehive and waved it at the three gargantuan wolves.

The sweet smell of honey drifted into the three gargantuan wolves’ noses, and the three gargantuan wolves could not help but drool.

Although the level of spiritual power of the gargoyles was not high, they were gregarious demonic insects and had poisonous needles, so they had no chance to taste the honey.

Yun chujiu broke three pieces of the beehive and threw them to the three gargoyles. The three gargoyles did not find any poisonous smell after smelling it, so they could not help but swallow it.

Damn!

It was too delicious!

They had never eaten such a sweet thing!

The three giant-toothed wolves were forced to cry. They felt that they had lived in vain in the past. There was actually such a delicious thing in the world.

Yun Chujiu was dumbfounded when she saw it. Although she planned to use honey to hook up with the three giant-toothed wolves, wasn't this too exaggerated? They were so delicious that they cried?

Compared to them, she, the foodie, could only sigh at her own inferiority. No wonder these three heads of teeth were so long. It was because they were too greedy!
