

The Yun Family's Ninth Child is an Imp! Chapter 2490

In order to avoid the crowd, Yun Chujiu deliberately let the sky net poisonous bee lead them to a place where there were no people.

Yun Chujiu hid behind a bush and saw a sky net flower in front of her. Next to the sky net flower was a pile of rocks, and a huge beehive was built on top of the rocks.

Yun chujiu looked around and did not find any other demon beasts. It was probably because the beehive was too big that no demon beasts dared to come and pick up scraps.

Yun Chujiu released the Queen Bee. "It's time for you to use your charm. Pick up as many as you can. I believe that you are the most beautiful queen bee in Tianluo Mystic Realm. You have to believe in yourself too!"

Queen Bee: Can it not speak? Can it faint again?

"Brother Wuji, take this bag of chili noodles. After the queen bee has lured the worker bees over, light a fire and smoke them." Yun chujiu handed a bag of chili noodles and flint to Xue Wuji.

Then, Yun Chujiu turned her gaze towards the three gargantuan Sky Wolves. "In a while, you guys will be responsible for attracting the remaining worker bees away. After I've taken care of the Queen Bee, you guys will be safe."

The three gargantuan Sky Wolves felt that they might not live past today. If they were given a second chance, they would definitely say one word to this sinister, vicious, and shameless little girl, "Scram!"

If they had to add a deadline before the word "Scram," they hoped that it would be ten thousand years, no, a million years!

Yun Chujiu finished dividing the work and released the Queen Bee.

The Queen Bee flew shyly towards the cluster of Sky Luo Flowers. All the demon bees were from a matriarchal society, and they had a fanatical obsession with the queen bee.

Therefore, almost all the queen bees were not allowed to leave the nest to avoid attracting the attention of other worker bees.

When the workers saw the queen bees, they were immediately dazed and rushed toward the queen bees.

The queen bees flew toward the place where Xue Wuji was hiding according to the plan.

At the same time, three giant teeth wolves rushed to the front of the hive, which immediately attracted the crazy attacks of the workers who were left behind. The three giant teeth wolves ran as fast as they could.

Yun chujiu used the same trick again. She used the poisonous chili smoke to lure the queen bee out and then killed it.

Once the queen bee died, the worker bees immediately lost their backbone. The queen bee that Yun Chujiu had subdued accepted them as a matter of course.

Yun chujiu divided the beehive into two parts. Half of it was kept in her bag, and the other half was kept in her spirit beast pouch for the queen bee and worker bees to share.

From that day onwards, Yun Chujiu and the other two began to release the queen bee crazily. They controlled the worker bees, took the beehive, picked the gargantuan flowers, and released the queen bee in an endless cycle.

The queen bee that was subdued by Yun Chujiu was shy at first, but later on, she fell in love with this beautiful bee model. This was a good way to quickly develop and expand the harem!

Now, it had become the most powerful queen bee in the Tianluo Mystic Realm. None of the queen bees had as many subordinates as it had. It was a well-deserved queen bee.

The three giant-toothed wolves finally understood one thing. It turned out that no matter how delicious the food was, they would get sick of it if they ate it all the time! They felt that they would never want to eat honey in their entire lives, because, well, their teeth hurt.

Yun chujiu looked at the tianluo flowers in her storage ring and felt that it was about time. For the sake of sustainable development, it was better not to continue picking Tianluo flowers.

This guy was counting the days. Less than half a month had passed. What was he going to do for the remaining half a month?
