

The Yun Family's Ninth Child is an Imp! Chapter 2494

Yun Chujiu ran as she pondered where to hide. That monster must be very familiar with the Tian Luo mystic realm. She couldn't hide from it, and it would catch up with her sooner or later.

Yun Chujiu recalled the appearance of the monster described by Ye Bingyu. Since it had many arms and legs, the more complicated the terrain was, the more disadvantageous it would be. Therefore, Yun Chujiu commanded the Demon Beast to run towards a dense forest.

The students following behind Yun chujiu were all panting from exhaustion, but they gritted their teeth and endured it.

That was because they saw that Yun chujiu did not dare to stop for even a moment, which meant that the monster must be very scary. Otherwise, Yun Chujiu, the little demon, would not be so nervous.

Finally, everyone entered the dense forest.

Yun Chujiu and the other three did not blush or pant, because they had free mounts!

Everyone gathered around and asked about the monster.

Ye Bingyu gave a brief description. Just as she and a few students were about to pick the Sky Luo Flower, they suddenly saw those sky Luo poisonous bees abandon their nests and fly away like crazy. Even the queen bee also ran away.

Just as they were feeling strange, they saw that huge monster and then ran away with their lives.

Ye Bingyu was able to survive because she had the defensive immortal artifact given to her by the Min Shi. Moreover, she was the furthest away from it at that time. Otherwise, she would have been caught long ago.

When everyone heard Ye Bingyu's words, a huge panic rose in their hearts.

They had never heard of any demon beast having limbs. That was a characteristic of the demon beasts in the sea. What exactly was that thing? Why did it appear in the Tian Luo arcane realm?

Before everyone could recover from their shock, they felt the ground tremble slightly. The student in charge of guarding the treetops jumped down and said in fear, "Yes, it's that monster! It, it's coming!"

Everyone immediately panicked like headless flies. They did not know what to do.

Everyone looked at Yun Chujiu. Since she could kill Xue Mo, she could definitely kill that monster this time.

The corner of Yun Chujiu's eyes twitched. "What are you all looking at me for? I'm just a weak chicken at the sixth level of the Lingxuan realm, what can I do?!"

Lackey Li Huan immediately said obsequiously, "Miss Yun, you are resourceful, we all believe in you. We will do whatever you say! Isn't that right?"

Most of the students who ran over were first-year students, and they all agreed.

The rest of the senior students and the people from the Wa Stone Academy remained silent, ready to see how things would go.

Yun chujiu glanced at those people, her small face was very gloomy. "People are selfish. If you don't believe me, then please choose another place to stay. After all, this forest is very big. "I don't want to wait for the monster to come in because someone doesn't listen to orders and implicates us."

"You! Why are you acting like a big shot! Do you really think you're so great? Let's Go!" Some students left angrily.

Yun chujiu looked at the remaining students and said, "That monster has many arms and legs. Its movement will be restricted in this forest, so our best choice is to fight it in the forest."

Everyone nodded and felt that what Yun Chujiu said made sense. No wonder she ran here to hide.

At this time., yun chujiu continued, "That monster's arms and legs can be extended, but I think there is a limit. When the time comes, we will try our best to attack from afar and find its weakness. When we attack later, we will work in groups. This way, we can maintain sufficient vigilance and combat strength to avoid being hit by the monster."
