

The Yun Family's Ninth Child is an Imp! Chapter 2495

Yun chujiu divided the group into three groups. She, Xue Wuji, and Jin Zhi each led a group.

Just as they finished their discussion, they heard a hissing sound. The monster had already entered the forest.

Yun chujiu waved her hand at the group. The group jumped onto the tree and looked ahead vigilantly.

Yun chujiu gestured to a few of the students, indicating for them to change trees.

Although the students did not understand Yun Chujiu's intention, they still obediently changed a few trees.

They saw a monster the size of a small hill climb into the forest. Its limbs were entangled with more than a dozen people, and some of them were people who did not listen to Yun Chujiu's words and ran away.

The students on the treetops rejoiced one after another. Fortunately, they chose to believe Yun Chujiu, or else they would be dead for sure.

Among those people, most of them were dead bodies. Only one woman was alive. With a cold smile on her face, she shouted coldly, "Yun Chujiu, come out! Don't think that you can survive by hiding inside. You are dead for sure!"

Everyone was very puzzled. That woman was wearing the clothes of the WA stone academy. Why did she look like she was with the monster?

Ye Bingyu was so angry that she gritted her teeth. This Liu Jinluan was really crazy. Was she crazy?

The monster might have felt that the corpses were a little inconvenient, so it actually sent them into its mouth and swallowed them.

Everyone felt nauseous when they saw this. Although the demonic beast was also very cruel, the monster in front of them inexplicably made people feel disgusted.

In the end, the monster only carried Liu Jinluan. The rest of the limbs began to dance violently. The trees that were hit by the limbs began to break. Only some trees that were made of hard materials survived.

At this time, the students finally understood why Yun Chujiu asked them to change the trees. It was because the trees that they were on before were not made of hard materials. If they were hit by the limbs of the monster, the consequences would be unimaginable.

Yun chujiu carefully observed the monster. Other than a dozen limbs, there were four legs under the monster's body. However, there was no hair on its body. It looked like an octopus with four legs. No matter how she looked at it, it was very strange.

She did not know if the monster had any other attacking methods other than using its limbs. She had to be careful.

Yun chujiu waved her hand at her team and everyone began to attack the monster with their spiritual power.

Most of them chose to attack the monster with their spiritual power. This way, they could maintain a certain distance from the monster, and the power would be stronger.

Yun Chujiu was the exception. She kept shooting purple spiritual needles at the monster's eyes.

The monster was very cunning. It used its limbs to wrap around Liu Jinluan and used her body to block everyone's spiritual attacks.

At this time, no one cared about Liu Jinluan's life. Moreover, she was obviously with the monster, so it was better for her to die.

Therefore, after a round of spiritual attacks, the monster was unharmed, but Liu Jinluan was completely dead. She didn't even close her eyes before she died. She didn't understand why she ended up like this? Could it be that Yun Chujiu was really the favored child of Tian Dao, and all those who went against her wouldn't have a good ending?

Yun Chujiu's spiritual power needle succeeded. Although it didn't cause any substantial damage to the monster, it made the monster cry out in pain and became even angrier.

Yun chujiu was delighted and gestured at everyone. Everyone understood and began to aim their spiritual power attacks at the monster's eyes.
