

The Yun Family's Ninth Child is an Imp! Chapter 2496

After the monster sensed everyone's intention, it began to hit the spiritual beasts with its tentacles.

The tentacles were very strong, and the spiritual beasts were scattered.

Just when Yun Chujiu was about to let the next wave of people attack, the monster actually turned around and ran away.

Everyone was very puzzled. The monster was not at a disadvantage, so why did it run away? It was really strange!

Yun chujiu stood on the treetop. After the monster left the jungle, it actually went back the way it came.

Yun chujiu did not dare to slack off. She arranged a few people to be on guard while the rest went down to the ground.

"What's going on? Why did the monster suddenly leave? Is it afraid of the Moon? But I've never heard of any demon beasts that are afraid of the Moon. Don't demon beasts like to move at night?" Jin Zhi said in confusion.

Everyone agreed. They felt that it was not because of the Moon. Moreover, that monster did not fall into a disadvantageous position. Obviously, it was not because of fear. Then, what was the reason?

Yun chujiu frowned. "No matter what it is, we can't leave this forest. Once we leave the forest, we can only let it slaughter us."

Everyone nodded and agreed. After dinner, they took turns to meditate.

Suddenly, the student in charge of guarding the tree said in horror, "That monster is back! There, there's another one!"

Yun chujiu was shocked. She jumped onto the treetop to take a look. Sure enough, there was another monster beside the monster. It looked the same except that it was slightly smaller.

It turned out that the monster had gone to call for reinforcements!

With the help of another monster, the two monsters quickly swept through a large area of trees and crawled towards where everyone was hiding while hissing.

Everyone started to panic. It was difficult to deal with even one monster. If two monsters came at once, wouldn't they be finished?

Fortunately, Yun Chujiu arranged it well. One of the three groups of people could rest for a while, but the two monsters did not gain any advantage.

Four hours later, the two monsters were probably tired and retreated out of the group's attack range, lying on the ground to rest.

The group finally let out a sigh of relief and began to take turns to rest.

After two hours, the two monsters began to attack again.

Two hours later, the two monsters retreated to rest.

..

The cycle continued until the sky was bright.

Both sides had been in a stalemate and neither side had gained the upper hand. However, a large part of the trees in the forest had been destroyed by the two monsters. If they dragged on for too long, Yun Chujiu and the others would be at a disadvantage.

Just like that, the two sides were in a stalemate for three days.

On this day, during the break between the truce, the students in charge of guarding the forest climbed down from the treetops in fear. They walked to Yun Chujiu's side and said a few words.

Yun Chujiu's expression suddenly changed. She jumped onto the treetops and looked into the distance.

She saw that the trees in the other three directions started to break. Although she could not see what exactly was happening, Yun Chujiu had a bad guess in her heart, there were probably monsters from the other three directions rushing over here.

If these monsters formed a circle, they would be dead for sure!

Many people jumped onto the treetops. They had the same thoughts and concerns as Yun Chujiu. They looked at Yun Chujiu. Should they stay here or find another way out?

Yun chujiu was in a dilemma. There were less than 300 people here. If they did not rely on the terrain, they might not even be able to deal with these two monsters. What should they do?
