

## The Yun Family's Ninth Child is an Imp! Chapter 2497

"Is there another forest nearby?" Yun Chujiu asked the group.

The group shook their heads. The area they were teleported to was mainly a valley. There was only this area of the forest, and the rest were scattered trees.

Yun chujiu knew that her decision was related to their lives, so she did not make a decision right away. Instead, she closed her eyes and began to think.

Everyone consciously did not disturb her. They stared at their surroundings vigilantly.

At this moment, the sound of footsteps could be heard from afar. Some people ran over in a sorry state. Some of them were those who had left the team previously, and some of them were those who had been forced into the forest by the monsters.

When those people saw Yun Chujiu and the others, they immediately sat down on the ground. A place with many people would always give them a sense of security.

Yun chujiu opened her eyes and glanced at those people. "Swear it. If you don't listen to my arrangements, you will be struck by lightning and die a horrible death!"

Those people showed an indignant expression. “Yun Chujiu, don’t go too far! This is not your territory. What right do you have to make us swear to listen to you?”

“What right do I have? Just because you came back to us to ask for help! Aren’t you all powerful? Then why did you turn back? I don’t want to spoil the whole pot of soup because of a piece of rat poop. If you swear to stay, if you don’t swear, leave this place immediately!”

Yun Chujiu’s face showed a cold expression. On the battlefield, what they were afraid of was not the enemy being strong or the enemy being weak, but they were afraid that they would not listen to orders, and they were afraid that the internal opinions would not be unified.

It was unknown whether those people were intimidated by Yun Chujiu’s cold expression, or if they had no other way to survive other than relying on Yun Chujiu and the others. In short, they were all unwilling to make a poison vow.

Yun chujiu divided everyone into four groups again. She separated the people who came later so that they would not gather together and cause trouble.

Yun chujiu made ye Bingyu the leader of the fourth group. Then, she continued to think of a way to escape.

In fact, if it was just her, she did not have to worry at all. At most, she could hide in the great void mirror, but what about the others?

Not to mention the others, Xue Wuji, Jin Zhi, and Ye Bingyu had to deal with them. Could they just watch them be eaten by the monsters?

According to those who escaped, there were two monsters in every direction, which added up to eight monsters. If they fought head-on, they would definitely lose.

They had to find another place to occupy the terrain, but where should they go?

Yun chujiu was so anxious that she wanted to bang her head against a tree. Because time was limited, once the eight monsters surrounded them, they would not be able to get out.

Some people saw that Yun chujiu could not come up with a solution, so they could not help but gossip. "Tch! Do you really think you are that capable? If you can't do it, don't occupy a good place. Let whoever can do it go."

"That's right, isn't he just a new student at the sixth level of the Ling Xuan Realm? ! Last time at the Godly Axe Heavenly Pit, I guess it was just a blind cat meeting a dead rat. In fact, it was just like that."

..

Yun Chujiu's eyes turned cold, and she said to the crowd, "Tie them up for me, and we'll feed them to those monsters when we get out!"

Although the crowd felt that what Yun Chujiu said was inappropriate, they still tied up those people who were gossiping.

Those few people first cursed, and then began to beg for mercy with tears and tears streaming down their faces.

Yun chujiu did not even look at them. It would be a good thing if they did not kill these people who were trying to bewitch the morale of the army. It was only right to scare them.

Xue Wuji curled his lips and got someone to use a rag to cover the mouths of those few people.

Instantly, everyone quieted down. They originally thought that Yun Chujiu was smiling and would not be serious. Only now did they know that military orders were not just for show.
