

The Yun Family's Ninth Child is an Imp! Chapter 2503

Yun chujiu glanced at everyone. "Which one of you is willing to lure the monsters over?"

Everyone did not expect Yun chujiu to actually want to use humans as bait this time. They looked at each other and remained silent. This was not a joke. If they were not careful, they would lose their lives.

Yun chujiu snorted coldly. "You guys are still not comparable to those Tian Luo poisonous bees. They had just killed quite a number of worker bees.

"Don't tell me that they are just demonic beasts. If it weren't for them, our lives would have been lost long ago! "Now we are comrades-in-arms fighting side by side. We have already gone to the demonic beasts twice. This time, it's our turn! "Don't tell me that your guts are not as big as these little things?"

Everyone's faces were filled with shame. Finally, a small number of people expressed their willingness to be bait.

Yun chujiu remembered these people and picked a few who had high spiritual power. "The few of you, follow me! The rest of you, lie in ambush."

When everyone heard Yun Chujiu's words, they were all stunned. They thought that Yun Chujiu would not risk her life at all. They did not expect that she would also be the bait.

Some people's faces immediately turned red, feeling extremely ashamed of their own thoughts.

Yun Chujiu didn't have the time to care about them. She told Jin Zhi and Xue Wuji to pay attention to some things before leading them to the monster's location.

Yun Chujiu took out the veil from her storage ring and gestured for everyone to put it on.

Although they didn't know what Yun Chujiu's intention was, they still put it on obediently. The reason why Yun Chujiu asked everyone to put on the veil was to prevent the monster from recognizing them.

In less than an hour, they arrived at the north side of the mountain where the monsters were.

Yun Chujiu said in a low voice, "Pretend to be new here and say something to attract the attention of the monsters."

The few of them were in a dilemma. What should they say?

Yun chujiu looked at them speechlessly and could only find a topic to talk about. She deliberately made her voice sharper and said, "Did you hear some strange sounds? It seems that something is hitting the mountain from the south side of the mountain."

Then, everyone replied dryly, "Ah! You're right, there really is a strange sound."

"Yeah, this sound is so strange!"

"It's really strange! Really Strange!"

..

The corner of Yun Chujiu's mouth twitched. These people's acting skills were really too bad! If it weren't for Xue Wuji and Jin Zhi staying behind to guard the place, she wouldn't have brought these people here no matter what.

However, those monsters didn't know much about the ways of the world, so it didn't matter if they were wrong!

Fortunately, after these people spoke a few words, they weren't so nervous anymore, and their conversation became more normal. They also raised their voices under Yun Chujiu's signal.

The remaining six monsters had been in a stalemate with Yun Chujiu and the others for a long time, so they were already hungry. When they heard someone speak, they immediately drooled.

The six monsters hissed and discussed for a while before sending two monsters over the mountain peak to hunt for food.

When Yun Chujiu saw the two monsters appear, she screamed sharply, “Oh my God! Monsters! It’s monsters! Run!”

Although she was shouting happily, everyone did not run fast. It was only when the two monsters were about to climb to the foot of the mountain that they quickened their pace.

The two monsters hissed and chased after them. Yun Chujiu and the others could have lured them to the ambush circle safely as long as they maintained their current speed.

However, at this moment, one of the students was so nervous that he tripped over his left leg and his right leg and fell on the ground. He was so unlucky that he hit his head on a rock and passed out with a lot of blood.
