

The Yun Family's Ninth Child is an Imp! Chapter 2504

Everyone was in a dilemma. Time was extremely precious. If they were to bring the fallen student along, they would definitely delay the speed of the entire team. However, if they were to leave him alone, they would feel bad.

Everyone turned their gazes towards Yun Chujiu. Yun chujiu looked at the direction of the wind and said, "Carry him on your back. I have a way to delay the speed of these two monsters."

It was not appropriate for everyone to ask. One of the stronger ones carried the man on his back and ran forward with all his might. When he could not run, another person would carry him.

In this way, everyone's speed decreased a lot. Moreover, the smell of blood caused the two monsters to become even crazier. They were getting closer and closer to everyone.

Everyone could not help but feel anxious. They asked anxiously, "Yun Chujiu, don't you have a way? Use it quickly! Otherwise, we won't take our lives."

Yun chujiu said softly, "It's no use if we're too far away. Let's Wait a little longer."

Everyone did not know what she was up to, so they could only run forward desperately.

The two monsters saw that they were getting closer and closer to them. They could not help but let out excited hisses. One of them could not wait to swing its limbs to attack everyone.

Everyone was so scared that they screamed. They were just a little bit away from being hit.

Yun Chujiu felt that the time was ripe. She threw the bodies of the two monsters.

The two monsters caught the bodies of the monsters with their arms and legs. They sniffed and stuffed the bodies into their mouths.

Yun chujiu then threw the bodies of the two monsters, but the monsters still swallowed them.

Yun chujiu curled the corners of her mouth. This time, she did not throw the bodies of the animals. Instead, she threw two broken sacks.

The two monsters thought that Yun Chujiu was still throwing the dead bodies of the animals and habitually caught them with their arms and legs. The sacks had holes in them. When the monster's arms and legs pinched them, the chili inside the sacks instantly sprayed out.

The monster was about to put it into its mouth, but the result was obvious. It was so hot that it could not open its eyes.

However, Yun Chujiu was still gloating in front of them. “Hey, do you guys think this chili is delicious? I still have some here. Do you guys want more?”

“It looks weird, what the hell! Since you have legs, why do you still have arms and legs? It’s so ugly!”

“Do you guys dare to continue chasing? My Chili is going to kill you!”

..

The two monsters did not want to continue chasing. Firstly, their eyes were hurting from the heat. Secondly, there were so many people in the cave. There was no need to run so far for these little ants.

However, they were angered by Yun Chujiu’s words. They roared and started chasing again.

Everyone took advantage of this gap to run far away. Moreover, they were getting closer and closer to the ambush, so they were not so nervous anymore.

They cursed in their hearts. They thought that Yun Chujiu had a good idea, but it turned out that she used chili noodles! Although this method was a little damaged, it really worked!

The two monsters were eager to take revenge, so they did not notice the ambushers and were caught by the rope.

Yun chujiu raised her knife and slashed down, one at a time. After cutting off the small protrusions on the two monsters' heads, the two monsters turned into black fog and disappeared.

The people who followed Yun chujiu sat on the ground and panted heavily. Yun chujiu was not unusual, because she was often attacked, and her ability to escape was quite profound.

Yun chujiu calculated that there were only four monsters left, so there was no need to hurry to attract them. She estimated that when they realized that something was wrong, they would scatter and search, and then she would think of ways to kill them separately.
