

The Yun Family's Ninth Child is an Imp! Chapter 2505

Yun Chujiu was right. Although the four monsters were confused as to why the other four had not returned for a long time, they did not pay too much attention to it. They only cared about the humans trapped in the cave.

Finally, with a boom, the cave collapsed.

The four monsters immediately used their arms and legs to clean up the cave entrance, wanting to get the people inside out and eat them.

However, when they finally finished clearing the hole after almost a day, they did not see a single person. They were so angry that they almost died.

Therefore, the four monsters began to split up and search for Yun Chujiu and the others.

Yun Chujiu and the others waited patiently. One monster killed another. It took about three days to kill all four monsters.

When everyone saw that the monsters had been killed, they were immediately overjoyed and filled with laughter.

However, Yun Chujiu felt that things were not too optimistic. There were still five days before the trial ended. Five days was too long. Anything could happen.

Moreover, those monsters were too strange. She had never heard of anything that turned into black fog after it died. She subconsciously thought of the Xue Mo from the Heavenly Axe Pit.

That Xue Mo was a red fog-like creature. Then, could these monsters also be a kind of demon?

However, didn't they say that the Devil died out hundreds of thousands of years ago? Previously, it was only because it was suppressed by the Heaven Punisher divine axe that it didn't die. Then, what was going on?

Yun chujiu told everyone about her worries. Although everyone felt a little uneasy, they felt that there shouldn't be anything else other than these eight monsters, so they didn't pay too much attention to it.

Everyone temporarily stayed in the cave. Whether it was day or night, Yun Chujiu arranged for ten people to be on guard in case anything unexpected happened.

That night, it was a full moon. The Moon in the sky was big and round, and the ground was bright and clear. Everything seemed peaceful and quiet.

On such a quiet night, the people in the cave heard several screams one after another. Then, a person in charge of the guard rolled and crawled into the cave.

“There, there are monsters! A, a large group!”

Before that person finished his sentence, a monster crawled in.

The cave where Yun Chujiu and the others were in this time was not very narrow, so the monster easily crawled in.

“Put on the rope!” Yun chujiu saw that everyone was stunned and hurriedly shouted.

Although everyone was caught off guard, fortunately, they cooperated well in the past few days. They immediately followed the original arrangement of the team and tied the monster’s limbs to give Yun chujiu a chance to kill it in one hit.

When Yun Chujiu saw that the monster’s limbs were controlled, she jumped up and used the kitchen knife to cut off the small protrusion on the monster’s head. The monster immediately collapsed on the ground and turned into black fog before disappearing.

Before everyone could catch their breath, another monster crawled in.

They could not help but feel lucky that the cave entrance was not very wide. Otherwise, if many monsters crawled in together, they would be dead for sure.

They used their methods to kill another one, but another one crawled in..

Everyone was numb from the killing. It was as if the monsters were endless. No one knew how many they had killed.

Everyone's spiritual power and physical strength were quickly dissipating. Moreover, everyone had to cooperate with each monster they killed, so they did not have the chance to rest.

Especially Yun Chujiu. Every monster needed her to kill, so her physical strength and spiritual power were also depleting the fastest. No matter how abnormal she was, she could not hold on any longer.
