

## The Yun Family's Ninth Child is an Imp! Chapter 2507

Crack, crack!

The sound of the monsters gnawing on the rocks grew louder and louder. Apparently, they had already gnawed off a large part of the rocks.

The cave was dead silent. Everyone could already feel the shadow of death. They did not expect that after fighting for so many days, they would still not be able to escape the fate of being eaten.

There were only four days left until the end of the trial, but they could only watch as the monsters ate them. They were really unwilling!

Yun Chujiu tried to take out the small stone that the cliff of Tian Dao gave her, but there was no reaction as expected.

Yun chujiu clenched her fists and stared at the monster with a cold expression. She felt that there was only one way to do this, and that was to establish a temporary contract with the monster.

Only in this way could they know the origins of these monsters and think of a way to survive.

Yun chujiu shared her thoughts and everyone looked at her as if she was a lunatic!

Regardless of whether this monster was a demonic beast or not, even if it was a demonic beast, its spiritual power level was much higher than Yun Chujiu's. In the end, not only would the contract fail, she might even be devoured by this monster.

Although Xue Wuji and Jin Zhi knew that Yun Chujiu was a monster, they were still worried. However, at this point, it seemed that there was no other way to survive.

Yun chujiu immediately tried to establish a spiritual connection with the monster. Just as Yun Chujiu's spiritual sense entered the monster's spiritual sense, it was entangled by a wisp of black fog.

The wisp of black fog tried to devour Yun Chujiu's spiritual sense like a ghost. Yun Chujiu's primordial spirit immediately struck at the Wisp of black fog with purple lightning. The wisp of black fog dissipated after being struck by several small lightning bolts.

In everyone's eyes, the monster had actually disappeared into thin air..

Yun chujiu did not have time to think carefully before another monster crawled in. Yun chujiu had everyone use ropes to control it and then directly sent their spiritual sense into it.

Sure enough, it was exactly the same as before. A wisp of black mist wrapped around Yun Chujiu's spiritual sense. After being struck by the lightning bolt, the monster disappeared into thin air.

A very bold idea emerged in Yun Chujiu's mind. To deal with these monsters, she simply needed to use spiritual power or brute force. She only needed to use her spiritual sense to attack.

Therefore, when another monster crawled in, before everyone could control the monster, Yun Chujiu's spiritual sense directly probed into the monster's spiritual sense and directed several bolts of lightning at the Wisp of Black Fog.

As the black fog dissipated, the monster disappeared into thin air again.

Yun chujiu was so excited that she trembled slightly. When another monster came in, Yun Chujiu waited until everyone controlled the monster. She cut off half of the small protrusions and told them about her discovery.

Everyone felt that the matter was really unbelievable. Only Yun Chujiu's divine sense could disperse the black fog, or could everyone?

A few of the more daring ones decided to give it a try. In any case, they could just sever their spiritual sense. At most, their spiritual sense would be damaged.

The results of their attempts made everyone very excited. Although their operations were not as easy as Yun Chujiu's, it was still not a problem for seven or eight people to work together to deal with a monster's spiritual sense.

Thus, everyone began to speed up the process of killing the monster.

Everyone was organized into several groups so that they would not be too tired and their efficiency would be higher.

Everyone was pleasantly surprised to find that as the number of monsters killed increased, their spiritual sense also increased a little. This would be very beneficial for their future cultivation.

In the end, no monster dared to approach the cave.

Everyone was elated. There were only three days left until the end of the trial. They only needed to endure another three days and they would be completely safe.

Yun Chujiu's heart was not very stable. She felt that there must be something even more terrifying behind these monsters. What was it?
