

## The Yun Family's Ninth Child is an Imp! Chapter 2508

Not only did Yun chujiu arrange for the students to stand guard at the entrance of the cave, she also arranged for several tianluo poisonous wasps to patrol the surroundings to prevent them from being caught off guard by the monsters.

When the Moon Rose, a tianluo poisonous wasp flew in and informed Yun Chujiu that all the monsters outside had disappeared.

After Yun Chujiu heard it, not only was she not excited, but the worry in her heart was even greater. She felt that an even greater danger was about to arrive.

What Yun Chujiu did not know was that at the same time, in the other regions of the Tianluo mystic realm, the students who were being hunted down and tortured suddenly realized that those terrifying monsters had disappeared.

Everyone had survived the disaster and could not help but rejoice that they had survived.

Compared to the regions where Yun Chujiu and the others were located, the monsters in these regions were much fewer. There were only about five or six of them.

Even so, many people were killed and injured because they could not find their vital points.

..

Yun chujiu got up and went outside the cave. The originally lush trees had been eaten by the monsters, leaving only bare soil. Even a large part of the rocks on the cave had been eaten away.

Yun chujiu climbed to the top of the mountain and looked into the distance. What she saw could only be described as a complete mess. Other than the mountain range that was still alive, everything else was eaten up by the monsters.

Yun chujiu frowned. Those monsters didn't seem to be demonic beasts, so where did all the food they ate go? Why did they suddenly change so much, and even mutate again?

They were obviously transformed by the Black Fog. What was that Black Fog?

Yun Chujiu felt that her mind was filled with questions. She sat on the mountaintop for a while, but she could not think of anything.

Yun chujiu sighed, climbed down the mountaintop, and walked into the cave. She did not see the students guarding the entrance of the cave, so she could not help but frown.

She continued to walk into the cave, thinking that she should scold the students who had left their posts without permission. Then, she was stunned!

Everyone in the cave had disappeared!

The cave was empty. Only the bonfire on the ground was still burning, but everyone had disappeared into thin air.

Yun chujiu rubbed her eyes. "Brother Wuji! Beauty Jin Zhi! Sister Bingyu!"

Yun chujiu called out several times, but only her own reply came back.

Yun chujiu quickly asked the patrolling Tian Luo poisonous bees. The Tian Luo poisonous bees said that they had been patrolling outside the cave. They did not know what was happening inside the cave at all.

Yun Chujiu knocked on the cave and did not find anything wrong. Besides, if there was anything wrong, there would not be an accident now.

She felt that the disappearance of these people must be related to the thing behind the monster. Where did it take the people?

If Yun Chujiu was a cold-hearted person, she could completely ignore the lives of those people. She only needed to wait for three more days and she would be able to leave safely.

Unfortunately, she was not.

Although she was sometimes wicked and evil, she could not leave her friends to die. She knew that if she did not go and save them, Xue Wuji and Jin Zhi would only die.

Yun Chujiu's mind was in a mess. She had no clue at all. These people seemed to have disappeared into thin air. Where would she go to save them?

Yun chujiu walked around the cave like a headless fly for dozens of rounds before she finally calmed down.

No matter how anxious she was, it was useless. She had to calm down before she could think of an effective solution. The most important thing now was to find out where they were trapped.

This tianluo mystic realm was so vast that it had no boundaries. Even the area they were in was very vast. where exactly had Xue Wuji and the others been taken to?
