

## The Yun Family's Ninth Child is an Imp! Chapter 2509

Yun Chujiu was in a hurry to think of a feasible solution.

She released all the poisonous wasps of Tianluo from her spirit beast bag. There were hundreds of thousands of them. She told them to quickly spread out and report to her as soon as there was anything wrong.

These poisonous wasps of Tianluo immediately flew away.

Yun chujiu knew that she still had a tough battle to fight, so she forced herself to close her eyes to meditate so that she could reserve enough energy.

An hour passed, but there was no news.

Two hours passed, but there was still no news.

Four hours, six hours..

When the sun rose, finally, a tianluo poisonous wasp sent the news.

According to it, it found a cave with black fog drifting away, and the black fog looked similar to the black fog when the monster dissipated.

Yun chujju was immediately delighted and rode the demon beast to the location pointed out by the sky net wasp.

The Demon Beasts ran with Yun Chujiu on their backs as fast as they could. They were very glad that if it were not for Yun Chujiu, they would have been devoured by the monster by now.

If they didn't destroy the thing behind the monsters, they wouldn't be able to survive in the future. Therefore, they were now like grasshoppers on the same rope as Yun Chujiu. They could only support each other in order to fight their way out.

Yun chujju changed several demon beasts in succession and finally reached the position pointed out by the sky net poisonous bee at the fastest speed.

The sky net poisonous bee was very smart. It hid behind a mound. In addition to its small size, it wasn't discovered by the black fog that was spreading everywhere.

Yun Chujiu, on the other hand, could not do that. Her target was too big, and she was discovered by the black fog as soon as she got close.

The black fog immediately turned into several monsters and pounced on Yun Chujiu.

Yun Chujiu also went all out. She divided her spiritual sense into several parts and attacked the monsters separately.

If others knew that Yun Chujiu did this, they would definitely call her a lunatic! Spiritual sense was extremely important and extremely fragile.

If her spiritual sense was killed, her spiritual sense would be severely injured. At worst, it would hinder her cultivation in the future. At worst, she would become a fool.

However, Yun Chujiu had no other choice at this moment. She was alone. She could only use this method to quickly kill those monsters.

Fortunately, the purple lightning in Yun Chujiu's spiritual sense seemed to be the nemesis of the Black Fog. In the blink of an eye, the black fog in the spiritual sense of the monsters was destroyed by the Lightning, and the monsters disappeared into thin air.

Yun chujiu withdrew her spiritual sense, holding a large kitchen knife in her hand, and carefully approached the cave.

As soon as she approached the cave, Yun chujiu smelled the thick smell of blood. Her head buzzed. Was she too late?

Yun chujiu thought that Xue Wuji and Jin Zhi had met with misfortune. Her eyes turned red, and there was even a faint sound of purple lightning crackling inside.

Yun Chujiu did not notice the strange phenomenon in her eyes. At this moment, she only had one thought, and that was to save people!

This cave was not formed naturally because Yun chujiu found that the ground was actually paved with green stone slabs. What frightened Yun chujiu the most was that there was actually a pattern of the resurrection lily on the green stone slabs.

Was it the Divine Devil Hall again?

Why were there frequent traces of the Divine Devil Hall in the ancient mystic realm?

Yun chujiu had a vague idea in her heart, but she felt that it was very absurd. She felt that her heart had been too tense recently, which was why she had such an absurd idea.

Yun chujia originally thought that there would be another black fog coming to stop her in the tunnel, but she did not expect that she had actually reached the end of the tunnel very smoothly.
