

The Yun Family's Ninth Child is an Imp! Chapter 2524

Another serving girl, Ming Qiao, echoed, "That's right. I don't know what the higher-ups are thinking, but they actually invited a trash like her over. The sixth level of the Ling Xuan realm is simply too laughable. "I heard that Yun Chujiu's mother was expelled from the Ye family. I don't know how they succeeded her."

"I heard that Yun Chujiu claimed to be the favored child of the Tian Dao. She deliberately created a few incidents. "Those people over there haven't seen the world before, yet they take her seriously. What a joke." Shi Feng, one of the guards, sneered.

"Yun Chujiu has been arranged to stay in this courtyard. This means that her status isn't even comparable to the guests in the mysterious room. "We should eat and drink. Speaking of which, the food provided to our guests is truly delicious," Shi Ling, the remaining guard, said as he ate.

The four of them were chatting and laughing. Their voices were not low, and it was obvious that they did not care whether Yun Chujiu would hear them.

Xing Wu was furious. "Big Brother, Miss Yun was a tyrant in Xingtian Academy. Why didn't she say anything when she was being bullied?" "Those four snobs actually ate Miss Yun's food, and they did not even help us get our food. Are they planning to starve us to death?"

"Miss Yun told us not to cause trouble, so please calm down. Besides, don't we have dry rations? If you're hungry, just eat dry rations," Xing Wen said disapprovingly.

Xing wu scolded indignantly, "Damn it! I thought that we would be able to eat well here, but I didn't expect that we wouldn't even be able to get food. I think Miss Yun is just a hooligan, but she's already cowardly in this rising sky city."

Xing Wen glared at him fiercely. "What do you mean cowardly? You should keep your mouth shut about master's matters. Just stay here obediently."

Xing Wu grumbled a few more words before he took out a steamed bun and chewed it bitterly.

Yun chujiu narrowed her eyes in the room. It seemed that these servants did not know the contents of the meeting. Speaking of which, the matter of the Divine Devil Hall was of great importance. Naturally, they would not leak the news casually.

Although Yun Chujiu hated these four villains who flattered the higher ones and trampled on the lower ones, she was more concerned about who had arranged for her to be in this courtyard.

The person who could arrange the courtyard should at least be a small steward. He must have someone in the upper echelons. What right did she have to offend the people of the Sky Bearing Alliance?

Could it be a trick of the fan family? She felt that it was unlikely. The fan family did not need to resort to such a trick at such an important gathering.

Yun chujiu thought for a while but couldn't come up with any ideas, so she decided not to think about it. Anyway, if the person behind the scenes wanted to target her, he would reveal himself sooner or later.

There was plenty of food in the storage ring. She ate a little and then took a nap.

Dean Gongsun and the others were busy receiving guests. This was also the reason why they had arrived early. This was a rare opportunity to expand their social circle, so they naturally wouldn't let it go.

Yun chujiu naturally wouldn't be insensible and cause trouble. For two days in a row, she filled the room with mushrooms.

When the four servants saw that Yun chujiu was weak and easy to bully, they became even more unscrupulous. Not only did they eat Yun Chujiu's meals, they didn't even help prepare the tea and water for washing up.

Not to mention Xing Wu, even Xing Wen could not stand it. Why did this Yun Chujiu suddenly seem like a different person? Was she really going to swallow her pride?

After breakfast on the third day, Yun Chujiu sent a voice transmission talisman to old master ye out of courtesy to ask if he had arrived. She wanted to go over and pay her respects.

Although Yun Chujiu and Old Master Ye had developed a grudge after the matter between ye Xinwan and her mother, Yun Chujiu naturally would not let others find fault with what she was supposed to do on the surface.
