

The Yun Family's Ninth Child is an Imp! Chapter 2525

Old Master Ye replied that he had already checked into room No. 80, indicating that Yun chujiu could go over and pay her respects.

Yun chujiu tidied up briefly and left the bedroom. She said to the four people who were eating snacks and chatting in the courtyard, "I want to go to room No. 80 to pay my respects to my great-grandfather. Which one of you will accompany me?"

Mingyue threw the melon seeds in her hand onto the plate. "How troublesome! Just stay here. What are you going out for? ! Let's Go!"

Yun Chujiu's expression was as usual, as if she did not see or hear Mingyue's disrespect. She did not bring Xing Wen and Xing Wu either. She only brought mingyue out of the courtyard.

After leaving the courtyard, Mingyue's expression became a little more restrained. She was probably afraid that others would see her.

However, she led the way at a very fast pace. She wanted Yun Chujiu to make a fool of herself. She felt that Yun Chujiu's spiritual power was only at the sixth level of the Lingxuan realm, and she was already at the eighth level of the Lingxuan realm. If Yun Chujiu could not keep up with her pace.., she could only jog. It would be so embarrassing.

Unexpectedly, even though she was already walking very fast, Yun Chujiu still walked unhurriedly on her right side. Moreover, her expression was normal, and she did not seem to be panting at all.

Mingyue was so angry that she gritted her teeth, but she did not dare to say anything outside.

Because mingyue was “Leading the way”, the two of them quickly arrived at room No. 80.

The servant in room No. 80 respectfully invited Yun Chujiu in and then let her into the study room.

Yun chujiu could not help but mock herself in her heart. Look, the servants here were the normal servants. The four people in her courtyard were simply the Masters! Therefore, strength was the most important principle. She had to improve her strength as soon as possible.

Yun Chujiu entered the study and bowed respectfully to Old Master Ye.

“Sit! Previously, you didn’t explain too clearly in the voice transmission talisman. What exactly is going on with the Divine Devil Hall?”

Yun Chujiu had briefly told old master ye about the matter of the Tianluo mystic realm before. After all, Old Master Ye was the big tree that she had her back now, so she had to report what needed to be reported.

Yun chujiu told great-grandfather ye in detail about the matters of the Divine Devil Hall. Of course, some things that should not be said had been processed by this fellow.

Great-grandfather ye's expression turned grave after listening to her. No wonder even the primordial chaos sect and the murderous origin sect had participated in this meeting. The matters of the Divine Devil Hall concerned the life and death of the immortal Yuan continent, so they could not be careless.

Great-grandfather ye glanced at Yun chujiu who was munching on snacks. This great-granddaughter of his could always be associated with some strange things. He did not know whether she would soar to the sky or fall to the dust in the future.

Yun Chujiu cursed Mingyue and the others in her heart as she ate the pastries. Damn it, she did not expect the pastries in this guest house to be so delicious. From this, she deduced that the taste of the food must be even better. They had all eaten them! Little B * tches, just you wait!

Great-grandfather ye saw the expression on Yun Chujiu's face and thought that she did not like the taste of the pastries. He frowned and said, "Little jiu, if the pastries do not taste good, don't eat them. Why Force Yourself?"

"I quite like the pastries. It's just that when I think about the matters of the Divine Devil Hall, I'm a little annoyed."

“The matters of the Divine Devil Hall will naturally be handled by adults like us. You can just focus on cultivating. “After this gathering ends, you must cultivate properly when you go back. Otherwise, the Divine Devil Hall will find trouble with you,” Old Master Ye said solemnly.

Yun chujiu nodded, indicating that she would definitely cultivate properly and improve every day.

Old Master Ye reminded her a few more times and picked up the Teacup. The meaning was obvious. It was time for Yun Chujiu to leave.
