

## The Yun Family's Ninth Child is an Imp! Chapter 2542

The people of the Divine Devil Hall were so angry that their noses were crooked!

It was an accident, but what was there to be surprised about? ! It was clearly a shock, alright? ! !

Interesting?

Are You F \* cking crazy? !

Although they couldn't see the person who was speaking, they could guess with their toes that the person who was speaking must be that D \* MN Yun chujiu.

The silver-masked man knew that the situation was hopeless. He immediately bit his index finger and wanted to use a secret technique, but he didn't expect that divine fortune teller Jiu had already been staring at him. he shouted, "Quick! This B \* Stard wants to use a secret technique to escape. Kill him!"

Dean Gongsun and the others already had the previous experience. They didn't need Yun Chujiu's reminder to stop him. Therefore, the silver-masked man didn't even have time to use a secret technique before he was captured by everyone.

The remaining black-masked men didn't have a backbone. They were quickly killed and captured. In less than an hour, the battle ended.

The head of the Cao family was naturally grateful and repeatedly thanked him. Although his status was higher than Dean Gongsun and the others, it was thanks to their help this time, so he naturally couldn't put on airs anymore.

Everyone was exchanging pleasantries at the side. Yun Chujiu went over and shamelessly said, "Senior Cao, I heard that the Luo Ping City where the Cao family is located is very prosperous. I haven't been there yet. Can I borrow your flying spirit tool to go for a stroll?"

The Cao family head was first stunned, then laughed loudly. "Of course. Everyone, you've helped this old man a great deal this time. No matter what, you have to go to my house to have a cup of tea before leaving."

Old Master Ye and the others' first reaction was that Yun Chujiu was really shameless. Who would take the initiative to request to be a guest? Wasn't this extorting a favor in return?

However, they thought about it and understood Yun Chujiu's meaning. Right now, the guards of the Cao family's head had very little spiritual power left, and the head of the Cao family had become a single commander. If they were to encounter the people from the Divine Devil Hall again, it would be a huge problem.

Yun Chujiu said that she was going to be a guest, but in reality, she was escorting the head of the Cao family back to the Cao family. However, by saying this, she could preserve the face of the head of the Cao family. After all, he was the head of a super aristocratic family, she really could not bring herself to ask everyone to escort him.

Everyone sighed. This little girl was really exquisite. She was too experienced in the ways of the world!

Dean Gongsun and the others pretended to decline a few sentences and then took the opportunity to agree.

Everyone boarded the Cao family's flying spirit tool. The guards and the captives of the Divine Devil Hall were riding on Mayor Huang's flying spirit tool.

The silver-masked man was brought to the Cao family's flying spirit tool. The interrogation was fruitless, and the soul-searching technique did not yield any valuable clues.

The head of the Cao family let out a long sigh. "At first, I thought that the little girl's words were too serious, but now it seems that the Divine Devil Hall is much more terrifying than I imagined. Fan Zhenqing, that old Fogey, even framed the little girl for spouting nonsense. It really makes one laugh."

Dean Gongsun and the others naturally couldn't agree with him. After all, they couldn't afford to offend the fan family, but some people weren't afraid!

“Senior Cao, you are absolutely right!”! “I was so wronged at that time. I was clearly reminding everyone of my righteousness, but I didn’t expect that the head of the fan family would actually slander me!”!

“Fortunately, you stood up for justice at that time. Otherwise, he would have forced me with his coercion.”

“Humph! That fan Zhenqing has always been unreasonable. Some time ago, he even accused our Cao family of stealing the fan family’s spirit stone mine. How Outrageous!”

“The fan family is really unreasonable. Senior Cao is an open and aboveboard person. How could he steal his broken spirit stone mine? ! To put it bluntly, if he really wants it, he can just rob it. Who cares about stealing? !”

The head of the Cao family:” ...”is robbing more noble than stealing?
