

The Yun Family's Ninth Child is an Imp! Chapter 2545

The purple-masked woman swept her gaze across the golden-masked men. "During this period of time, all of you should behave yourselves and not expose your whereabouts. Especially the few of you who are hiding in the origin chaotic sect and the origin killing sect, do not expose your identities unless it is absolutely necessary."

The golden-masked man who was kneeling at the very front was obviously highly regarded, he gathered his courage and asked, "Sir, in the past, we were afraid of being discovered by others, so we did not openly kill that Yun Chujiu. "Now that the matter has been exposed, why don't I send someone to infiltrate the Sky Punisher Academy and kill her!"

"Arrange for some death warriors to go. Don't leave any loose ends." "In addition, you can ask the few nails that stayed in the Sky Punisher Academy to cooperate with you. If necessary, you can abandon them." "We haven't found the whereabouts of the Sky Punisher godly axe after so many years. There's no value in living anymore," the purple-faced woman said coldly.

"Yes!"

..

Yun Chujiu didn't know that the Divine Devil Hall had already made a big move to assassinate her. After school started, she still went around to seek lessons. Her days were quite fulfilling.

On this day, Yun Chujiu received a voice transmission talisman from Old Master Ye. He said that he received some spirit fruits that were given to her by others. He asked her to go back to the Ye family with Ye Bingyu the next day to eat them.

Yun Chujiu curled her lips. It was definitely not just about eating the fruits. If it was just about the fruits, wouldn't it be fine to have someone send them over? Besides, why didn't he ask ye Wenhong to go back with him! There must be something fishy going on!

However, it had been a long time since she had gone back to the Ye family. It would be good if she went back to see if there was anyone who did not have eyes to destroy Shaohua Garden.

Therefore, the next day, she and Ye Bingyu left Tianluo City with her ten guards and rushed to the Ye family.

The journey was very smooth. When they arrived at the Ye family, the two of them originally planned to visit Old Master Ye first. They did not expect that old master ye would send someone to tell them to go back and have a good rest. It would not be too late to meet him at the banquet.

Yun chujiu did not know what Old Master Ye was up to. Anyway, she had the Heaven Dao Cliff as her trump card, so she was not afraid that he would play any tricks.

Yun Chujiu returned to Shaohua garden and saw that her "Calligraphy" was still on the wall. She nodded in satisfaction.

The six servants of Shaohua garden stood in two rows in fear and trepidation, welcoming the Little Devil's return.

Yun chujiu glanced at them and walked into the courtyard with her hands behind her back.

The little devil looked around and found that the courtyard and the house were very clean. The Spirit Peach Forest and the flowers and plants were also well taken care of. Only then did she generously praise the servants.

The six servants were so excited that they almost cried. When they found out that the little devil was coming back, they were so nervous that they did not sleep for the whole night. They were afraid that the little devil would not be satisfied.

Yun Chujiu sat on the stone bench and waved at them. "Let me ask you, did anything unusual happen to the Ye family recently? Why did great-grandfather suddenly call me back?"

The six servants looked at each other, and then an old woman lowered her voice and said, "Miss, I heard that the young master of the fan family came yesterday! I don't know if it's because of this reason."

Yun chujiu frowned and gave some spiritual stones to the old woman, telling them to leave.

Fan Mingchuan came? Why did he come? Was it because of the instructions of the Master of the fan family? Or was he here to avenge his mother and sister?

Yun Chujiu was not afraid that fan Mingchuan would recognize her. After all, there was mud on her face and she had changed her voice when she spoke.

Yun chujiu did not dress up during the banquet. She only changed into a clean aqua-blue dress and strolled into the banquet hall.
