

The Yun Family's Ninth Child is an Imp! Chapter 2550

The warmth on fan Mingchuan's face could no longer be maintained. He asked coldly, "Who is he? How can he make others pale in comparison? Does he think that he is a true disciple of the primordial chaos sect?!"

Yun chujiu curled her lips. "It doesn't matter if he is a true disciple or not. As long as he is the Sun in my heart, it's enough. "Cousin Mingchuan, since you've already said it, don't waste your time on me. By the way, don't you feel that it's very tiring to be so affectionate?"

After Yun Chujiu finished speaking, she left with Ye Bingyu and the ten guards.

Fan Mingchuan looked at Yun Chujiu's back with a gloomy expression. He turned around and left Tian Luo City.

Yun Chujiu returned to the dormitory. She felt that these two days had been like a joke. That Fan Mingchuan was simply crazy! However, if the head of the fan family really wanted to hit her, it would really be quite troublesome.

She could not wipe out the fan family like how she had wiped out the Zhao family back then. Moreover, to outsiders, this was indeed a good marriage. Old Master Ye was probably all for it.

It looked like she had to enter the primordial chaos sect. Only then would she have the capital to persuade Old Master Ye to give up on the marriage alliance.

Hence, in the following days, other than attending classes and skipping classes, Yun chujiu basically spent all her time cultivating.

However, even though she had accumulated a lot of spiritual power in her body, the heavenly lightning was still not here. This fellow was so anxious that he was about to go to bed.

Heavens, did this old bastard Tian Dao learn to be smart? Could it be that he did not plan to strike her in the future? If there was no heavenly lightning, she would not be able to break through in her lifetime.

Seeing that the time for the Hunyuan sect to recruit students was approaching, this fellow had no choice but to run to the Heavenly Dao Cliff.

“Little Tian Tian, can we discuss something?” Yun Chujiu said with a cheeky smile.

“What is it?” The Heavenly Dao cliff had an inexplicable ominous feeling in its heart.

“Well, I haven’t broken through in a long time. Well, can you deliberately make a mistake and draw some heavenly lightning to strike you?”

Heavenly Dao Cliff: "..."

It had never thought that a person could be so shameless as to make it make some mistakes on purpose and draw lightning to strike you? Was Her Heart Black?

Yun chujiu also felt that she was a little shameless and laughed awkwardly. "Forget it, I also think that my request is a little too much. Just pretend that I didn't say anything and don't take it to heart."

Actually, Yun Chujiu said these words from the bottom of her heart. However, the Heavenly Dao cliff understood that Yun chujiu had some bitterness that she couldn't say. She was pitiful and had no way out. It was a little soft-hearted.

For hundreds of thousands of years, it had only talked to this little girl and only had this one acquaintance. It didn't seem like it was a big deal to help her. Anyway, it wasn't like it hadn't been struck before. Moreover, after Wu Yun came, most of the heavenly lightning would be absorbed by the little girl. It wouldn't have any effect on it.

"How can I make a mistake? Tell me!"The Heavenly Dao Cliff said proudly.

Yun chujiu did not expect the Heavenly Dao Cliff to change his mind. She laughed dryly and said, "Well, Little Tian Tian, you don't have to force me. I also feel that my request was a little too much. I was too anxious."

The more Yun Chujiu said so, the more the Heavenly Dao cliff insisted on helping.

Yun chujiu rubbed her nose. She finally understood why the White Lotus was invincible. It turned out that this method of retreating to advance was really useful!

Forget it. Anyway, when the lightning struck, it would not hurt the Heavenly Dao Cliff. Moreover, Wu Yun probably hated the Heavenly Dao cliff long ago. It would not be bad for him to do it again.

However, what kind of mistake was better for the Heavenly Dao Cliff to make?
