

The Yun Family's Ninth Child is an Imp! Chapter 2551

“What’s so difficult about that? If you casually make a golden light beam, Wu Yun will probably come and strike you!” Unfortunately, the fan family was too far away. Otherwise, the Heavenly Dao cliff would make a golden light beam to deal with the fan family.

The Heavenly Dao Cliff had no choice but to bring Yun chujiu to the bottom of the valley and then make a golden light beam to casually shake her.

A certain Jiu secretly waited for the lightning to strike. However, her butt hurt from sitting down, and there was no heavenly lightning.

Damn it!

Could it be that the old bastard Tian Dao had seen through her scheme?

Heavens, what should she do? Could it be that her spiritual power could only be stagnant at the first layer of the spiritual void tier?

When night fell and the Heavenly Lightning did not come, Yun Chujiu had no choice but to leave the Heavenly Dao Cliff with her head drooping.

When she returned to the dormitory, this fellow did not wash up and lay on the bed, worrying.

Why did she have to be struck by lightning to break through?

She had never heard that people with thunder spirit roots needed to be struck by lightning to advance. It was only when their spiritual power reached a certain level that they could break through.

Even if there were some records of the heavenly lightning spirit roots, there was no mention of needing to be struck by lightning to advance.

Then, why did she have to be struck by lightning to advance? Was there no other way?

What was the use of the lightning strike?

Yun chujiu sat up from the bed and walked to the table. She took out a piece of paper and drew a line, analyzing the connection bit by bit.

Yun Chujiu's eyes suddenly lit up. She had found the key.

The reason why she could break through after being struck by lightning was because when the lightning struck, a large amount of lightning spirit energy would rush into her body. Similarly, as long as a large amount of lightning spiritual force entered her dantian, she would be able to level up.

The More Yun Chujiu thought about it, the more excited she became. She said to the three in her dantian, "Hurry up and spit out a large amount of lightning spiritual force that you have stored. I want to use it to break through!"

However, the three of them were as quiet as chickens. There was no reaction at all.

Yun Chujiu said it again, but the three of them were still as quiet as chickens. There was no reaction.

"F * ck! Are you all shameless? ! You've been living here for so long, so what if I ask you to pay some rent? Besides, I'm only here to break through, it's not like I'm not returning it to you. Do you have to be so stingy?"

The three of them were still as quiet as chickens.

Yun chujiu rolled her eyes. "Alright, since you're all so unwilling, then I have nothing to say. Anyway, if I can't break through, I won't be able to enter the chaos origin sect.

“If I can’t enter the Chaos Origin sect, then I won’t be able to find a new way to be struck by lightning. If I can’t find a way to be struck by lightning, then all of you won’t have any lightning spiritual power to absorb in the future. It’s up to all of you.”

The three of them were clearly confused by Yun Chujiu’s tongue twister. After a while, they reluctantly began to spit out lightning spiritual power.

“It’s too slow! Spit it out faster, just like when the heavenly lightning struck me!” Yun Chujiu said discontentedly.

The three of them had no choice but to speed up the release of the Lightning Spiritual Power. Yun chujiu nodded in satisfaction. “Let’s do it at this speed for six hours. You’ll have to suck it back after you spit it out anyway, so you won’t be at a disadvantage.”

The three of them thought about it and realized that it really was the case. It didn’t really matter. Thus, they sped up the release of the Lightning spiritual power.

Six hours later, a certain jiu proudly discovered that she had broken through to the third layer of the spiritual void tier!

Hahaha!

Was there anyone smarter than her in this world?

God damn it, do you think that I can't break through just because you don't let the Lightning Strike Me?

La La La, in the future, she could break through anytime and anywhere and no longer be bound by the god of thieves, Hahaha!
