

## The Yun Family's Ninth Child is an Imp! Chapter 2552

Just as Yun Chujiu was showing off, she heard the little black bird say weakly, "Master, you are too happy! Without the Lightning, how can Xiao Mogu and I increase our spiritual power?"

"Moreover, the spiritual power in the three of them is limited. If you use less of it, will they be willing to spit it out in the future?"

Yun chujiu was like a balloon that had been punctured by a needle. She immediately wilted.

Yes, this was not a long-term plan. If there was no lightning to replenish it, the three in her dantian would go on strike sooner or later. Moreover, Xiao Heiniaoy and Xiao Mogu also had no way to cultivate. It seemed that they still had to find a way to attract the lightning.

This fellow rolled his eyes. At present, there were only five ways.

The first way was to find a secret realm to enter for a trial. She had to think of a way to trick the weapon spirit array into striking her with lightning. If she could get a little, she would get a little.

The second way was to find a divine weapon like the Heavenly Dao Cliff and make it make a mistake. That way, she would be able to get some heavenly lightning.

The third way was to do something that would make the Heavenly Dao Qi smoke. It was likely that it would also strike her.

The fourth way was to find a place like the Lightning Tribulation Valley. She could absorb the lightning and find treasures at the same time.

The fifth method was to absorb as much lightning as she could when the weather was normal, even if it was silver lightning.

Yun chujiu sighed. None of the five methods were easy to implement. She could only take it one step at a time. The most important thing now was to find a way to enter the primordial chaos sect.

On this day, Yun Chujiu went to the second grade's alchemy class as usual.

As usual, she watched others refine pills from the side and kept shaking her head as she silently ridiculed them.

Instructor Luo shook his head. This Yun chujiu had been fishing for fish for three days and fishing for nets for two days. Rather than saying that she was here to freeload from the class, it was better to say that she was here to play.

Yun chujiu watched for a while and felt that it was meaningless. After all, she had already memorized the pill formula. Just as Yun Chujiu was about to fall asleep, a skinny old man walked in.

Teacher Luo quickly went forward and said, "Teacher Wen, why are you here?"

Teacher Wen was the chief teacher of the Alchemy Department and did not teach, so teacher Luo was very surprised.

Teacher Wen nodded slightly, "There are a few kinds of herbs that need to be picked in my herbal field. I'm afraid that those odd-job workers don't know the gravity of the matter and will damage them while picking. So, after class, tell these students not to leave first and to go to the field with me."

Teacher Luo smiled and said, "I see. You only need to send me a message. Why bother to trouble you to come personally?"

Teacher Wen waved his hand. "Anyway, I'm going to the field, so I'll just take it as a way."

Yun chujiu, this lazy person, did not want to pick any herbs, so she decided to escape.

Unfortunately, she was discovered by teacher Wen as soon as she left her seat. “Yun Chujiu, where are you going? You were so active when you were freeloading from the class. Why are you sneaking out when you are doing work? Dream On! Follow me obediently!”

Yun chujiu laughed dryly and could only return to her seat to wait. She was frustrated. If she had known this would happen, she wouldn't have come to this class.

After class, everyone followed teacher Wen to a medicinal field.

Xingtian Academy's medicinal field was very large. Usually, there were teachers and handymen to take care of it. Each type of medicinal herb was cultivated separately. Therefore, the medicinal field was divided into several small areas.

Everyone was divided into several groups and each was responsible for picking one type of medicinal herb.

The easiest was naturally picking the fruit, and the most troublesome and tiring was picking the whole herb. Because they had to be careful not to hurt the roots, it took a lot of time and effort.

Coincidentally, a certain Jiu was arranged to pick the whole herb.
