

The Yun Family's Ninth Child is an Imp! Chapter 256

Yun Chujiu talked to the strange grass in her Dantian. "Gou Weiba, this is a great opportunity! Save up all the dense heavenly lightning. After I survive this round, I'll advance to the sixth level of Spirit Enhancement. When the time comes, I'll refine even more advanced medicinal pills for you!"

"Gou Weiba, we're now on the same boat. My host body is choking on its farts, and you won't live either, so you better buck up!"

"Gou Weiba, I see that you're usually pretty awesome. Don't tell me you can't even deal with these little purple loaches?"

...

The strange grass in her Dantian shook violently, probably conveying that it looked down on the purple heavenly lightning bolts! Yun Chujiu instantly felt a lot more at ease.

Although the strange grass was a ticking time bomb, it would at least protect her before trying to fatten her up with nourishment.

Yun Chujiu felt confident in her heart and she immediately immediately started showing off!

"Hey! I'm tired from running so I'm just going to sit here. If you have the ability, then strike me! If you don't dare to do so, then you're a bastard!" As Yun Chujiu said that, she actually sat cross-legged on the ground, looking as if she was ready to be struck by lightning.

The dark clouds in the sky began to churn violently!

Several purple bolts of lightning gathered into five huge bolts of lightning as thick as a wrist, and struck down violently at Yun Chujiu.

Yun Chujiu could not help but feel her scalp go numb. In the past, one such bolt of lightning could strike her no problem. However, with these five bolts of lightning, she definitely would have to get her hair messy.

If other people knew what Yun Chujiu was thinking at that moment, they would definitely be angered to death!

At that point in time, she was still thinking about her hair. The most important thing right then was to save her life, alright?

The five huge bolts of lightning were like five purple lightning dragons, ferociously pouncing toward Yun Chujiu.

Yun Chujiu made up her mind. At most, she would die. Perhaps with this strike, she would have transmigrated again! This time, she had to arrange a good family for her! If she was not going to be a princess, then at least let her date one...

Just as Yun Chujiu's thoughts were running wild, five bolts of lightning had already struck her. Yun Chujiu could not help but let out a miserable cry. "F*ck! It hurts so much!"

Her body seemed as though it was about to explode. All her limbs and bones were occupied by the ferocious power of lightning. The power of lightning kept crashing into Yun Chujiu's meridians. Yun Chujiu's body was obviously rapidly expanding!

At that moment, only Yun Chujiu's brain was functioning. At that moment, she thought miserably, 'It's over. I'm like a balloon now. When it reaches a certain level, I'm going to explode! Dead without a complete corpse!'

The dark clouds in the sky shook with pride. 'Little fellow, let's see how you'll stagger when going up against the heavenly lightning! I'll definitely strike you into ashes!'

Boom! Boom! Boom!

The dark clouds continued to ceaselessly strike!

Yun Chujiu felt that she was going to be doomed this time!

Although the strange grass in her Dantian was trying its best to absorb the lightning in her body, it could not withstand the continuous lightning strikes from the dark clouds in the sky. Just as it absorbed a portion of it, a large amount of lightning power surged into her body. She was only flesh and blood! How could she withstand such violent lightning power?!

“Master, let me out. I’ll help you absorb some!” Little Black shouted from inside the spiritual beast pouch.

“It’s useless even if you come out, Little Black. It’s different this time. Why should you sacrifice your little life?! Besides, we signed an equal contract. If I die, you’ll be free!” Yun Chujiu said with a bitter smile.

“I’m willing! Stop talking nonsense! Let me out quickly!” Little Black kept banging its head against the Spiritual Beast Pouch, as if it would kill itself if it was not let out!
