

The Yun Family's Ninth Child is an Imp! Chapter 2560

Uncle Li took the spirit stones and brought Aunt Li out of the courtyard to buy some vegetables.

"Little Jiu, are you so relieved that you let them go? Aren't you afraid that they won't come back after taking the Spirit Stones?" Ye Bingyu asked in puzzlement.

"If they don't come back, it's only a loss of 20,000 spirit stones. It's better than staying behind to harm us." "Don't worry. That broker is very smart. The people he found won't have any problems." Yun Chujiu said indifferently.

After about two hours, uncle Li and his wife came back breathlessly. Apparently, they were in a hurry to avoid wasting time.

The two of them started to cook again without stopping. Soon, a tempting fragrance drifted out from the kitchen.

When the dishes were served, Yun Chujiu took a few bites and suddenly felt that the money had been well spent!

This fellow silently decided that he would definitely give Aunt Li more money in a few days. The food was too damn delicious! It was several times more delicious than the food of the Sky Bearing Alliance!

Yun Chujiu silently made up her mind. No matter what, this aunt Li could not be let go. This was a big treasure!

Xue Wuji and the others were also eating until their mouths were dripping with oil. They admired Yun chujiu so much that they were prostrating themselves on the ground. This fellow could actually find a treasure by finding a random servant. They really had no choice but to accept it.

On the other side, Fan Mingchuan was drinking tea in the inn, feeling quite pleased with himself.

He sneered in his heart. That Yun Chujiu was really naive. It would not be long before she would take the initiative to come to their door and admit defeat. Right now, Ning Hai city was filled with people. All the inns were full. They definitely wouldn't be able to find a place to stay.

Fan Mingchuan didn't have any interest in Yun chujiu at all. It was just because of the orders of the head of the fan family.

The head of the fan family felt that Yun Chujiu had made a great contribution to the matter of the Divine Devil Hall. If Yun Chujiu joined the fan family, it would definitely be beneficial to the fan family's reputation.

Most importantly, he could use this as a catalyst to move around with the sky bearing alliance and the two great sects in the future. This could not be exchanged for anything.

Fan Mingchuan heard a guard knocking on the door and pursed his lips. It seemed that Yun Chujiu and the others had come to ask for help.

After fan Mingchuan let the guard in, he said proudly, "What? Did Yun Chujiu and the others come back? Humph, what you said before sounded nice. Now, aren't they still asking for help from me?!"

The guard looked embarrassed and stuttered, "Young, young master, although Yun Chujiu couldn't find the inn, she bought a courtyard."

Fan Mingchuan was stunned and let the guard out in a huff.

He thought that if Yun chujiu couldn't find the inn, she would come over and give in. He didn't expect her to buy a courtyard. The houses in Ninghai City were not cheap. He did not expect Yun chujiu to be very rich.

However, did she really think that she could get into the chaos origin sect? HMPH! She really overestimated herself. However, it was good that she bought a courtyard. In the future, it would be good for them to keep this courtyard for a private meeting.

Fan Mingchuan was full of confidence. As long as he got into the chaos origin sect and Yun Chujiu did not get into the sect, the Ye family would definitely agree to this marriage. At that time, regardless of whether Yun Chujiu was willing or not, she could only marry him.

Ye Bingying had also received the report from the guards. She curled her lips. That Little B * Tch was really rich, but so what? ! Let's wait and see!

Yun Chujiu sent people to inquire about the primordial chaos sect's entrance examinations over the years. The results of the inquiry made their hearts turn cold.

The primordial chaos sect only recruited disciples once every ten years. Moreover, there would be no less than 100,000 people who applied for the examinations every time, but the number of people recruited was only a mere 500 people.
