

The Yun Family's Ninth Child is an Imp! Chapter 2561

Among the five hundred people who passed the entrance test every time, only a very small number of them would directly become inner disciples. A small number of them would become outer disciples, while the rest would be odd-job workers.

It was said that even the odd-job workers who passed the test had spiritual power levels above the second level of the spiritual void tier, and those inner disciples were even above the sixth level of the spiritual void tier.

Ye Bingyu immediately became listless. "Little Jiu, I told you, you bought this courtyard in a hurry, right? One of you is at the fifth level of the spiritual void tier, one is at the sixth level of the spiritual void tier, and one is at the seventh level of the spiritual void tier. I am also only at the seventh level of the spiritual void tier. For people like us, even the requirements of the servants are far off! How could we possibly pass the test?!"

Xue Wuji and Jin Zhi also felt that what ye Bingyu said made sense. Their spiritual power was far too inferior, and Little Jiu was probably going to fail this time.

"As the saying goes, when the cart reaches the mountain, there will always be a way. When the boat reaches the bridge, it will naturally be straight. At worst, you won't be able to pass! Look at all of you, do you have to look so miserable?!" Yun Chujiu said indifferently as she chewed on a fruit.

Everyone thought about it and agreed. At worst, they could just go back to school! It wasn't like the sky would collapse just because they couldn't pass the primordial chaos sect test. With that thought, the three of them were no longer so anxious.

Yun chujiu flipped through the contents of the entry test again. It had to be said that the primordial chaos sect was very good at playing. Every test had new tricks, and some tests were simply meant to prank people.

Yun chujiu was very suspicious. The reason why the Primordial Chaos sect did not register for the entry test was to satisfy their evil prank.

A few days later, the entry test for the primordial chaos sect began.

When Yun Chujiu and the other three arrived at the registration site, they were really shocked. Although there were twenty registration platforms, the line was still several miles long.

Yun Chujiu estimated that if they were at the end of the line, they wouldn't be able to get in even at night.

"Let's go. Come back tomorrow." Yun chujiu blinked her eyes and said.

"Little Jiu, it'll probably be the same tomorrow. Can't you see that there's still an endless stream of people coming?" Jin Zhi pointed at the crowd that kept coming over and said.

“Don’t worry. I have my own ways. Let’s Go!”

Seeing that Yun Chujiu was confident, Jin Zhi and the other two had no choice but to follow her back to Ninghai city with a dubious look.

After entering Ninghai City, Yun Chujiu went straight to the store and found the broker from before.

“Miss Yun, what are your orders?”The broker asked with a smile. Although this young lady had high expectations, she was generous. As long as there was money to be made, nothing else mattered.

Yun chujiu called the broker to the side and said in a low voice, “The two things you helped me with were good. Now I’ll show you a way to make a small fortune.”

The broker’s eyes lit up. “Miss Yun, please tell me. Don’t worry, I Won’t let you give me advice for nothing.”

Yun chujiu curled the corners of her mouth. She loved to deal with smart people!

“We went to the registration site of the primordial chaos sect just now. There was a sea of people there, and the registration line was several miles long.

“This is a good opportunity to make a fortune. You find some people, and the more the better. You get up early and go to line up in the dark. Then, if anyone wants your position, you let them spend money to buy it.

“In addition, you can invest some capital and hire people to sell some fruits, green beans soup, or even some storybooks to sell. Those people in the queue are bored to death.”

The broker’s eyes immediately lit up. He had already seen a large number of spirit stones waving at him. Many of these people who applied for the primordial chaos sect were from large clans. They were not short of money at all. He would definitely be able to make a fortune.
