

The Yun Family's Ninth Child is an Imp! Chapter 2563

Yun Chujiu put on an act and said, "I'll transfer the Spirit Stone to you, keep it well."

Liu Cai saw the spirit stone that Yun Chujiu transferred to him, and his nose almost went crooked from anger!

There was only one spirit stone! Damn it, it was actually a low-grade spirit stone, this guy was too stingy!

After about fifteen minutes, it was the turn of Yun Chujiu and the other three.

The registration process was very simple. One only needed to hand over the identity document to the disciple in charge of the registration to have a look, and then pay a hundred high-grade spirit stones, and they would receive a test jade token.

Yun chujiu originally thought that she would be ridiculed and ridiculed by others again, something like how someone with such low spiritual power actually dared to apply for the Hunyuan sect, but she didn't.

Yun chujiu couldn't help but sigh in her heart. As expected of a super sect, this disciple's quality was indeed higher.

How could she have known that although the disciple in charge of the registration did not show it on the surface, in his heart, he simply despised it to no end! Were these four people here to make a joke? The highest level was only at the seventh level of the Lingxuan realm, yet they actually wanted to enter the primordial chaos sect. was there something wrong with their heads?

Yun Chujiu and the other three returned to Ninghai City with the registration jade tokens, waiting for the entrance test in five days.

After Yun Chujiu returned to the courtyard, she asked Aunt Li to buy a lot of ingredients. She Fried, fried, and cooked a lot of dishes before putting them into her storage ring.

“Little Jiu, what are you doing?”Ye Bingyu asked in confusion.

“Eating during the test. It might take us a month to pass all the tests. How can we not prepare something to eat?” “Aunt Li, if you have time, make some more. When we come back from the test, I’ll save it for when we enter the primordial chaos sect.”Yun Chujiu said loudly.

Everyone looked at each other. This guy was really confident. was she so sure that she could enter the primordial chaos sect?

On the evening of the registration, Liu Cai sneaked in.

Seeing his happy face, Yun Chujiu knew that he had made a lot of money. She smiled and said, "It seems that the profits are not bad!"

"It's all thanks to Miss Yun! These few days, I've made more money than I've made in my ten years as a broker. This is the half of the profits that you should receive." Liu Cai said as he transferred more than two million high-grade spirit stones to Yun Chujiu.

"The profits are really not bad. You should open a self-service restaurant first. Don't make it too big, just maintain it for now. After I've established a firm foothold in the primordial chaos sect, we'll do other business."

"Self-service restaurant?" Liu Cai had a blank look on his face. What was a self-service restaurant?

Yun chujiu briefly explained what a self-service restaurant was to Liu Cai, hearing this, Liu Cai shook his head repeatedly. "Miss Yun, isn't your so-called self-service obviously losing money? A person can pay two hundred upper grade spirit stones and eat as he pleases? If they choose to eat the expensive ones, won't we lose our lives?"

Jin Zhi and the others also felt that what Yun Chujiu said was not reliable. Was this little Jiu's brain damaged?

Yun chujiu said slowly, "Of course we can't just eat whatever we want. First of all, each customer is limited to two hours. After that, they can only leave. Second, those expensive dishes have to be limited in supply. Each person can only receive one serving."

Finally, for the slightly more expensive dishes, you have to find all kinds of reasons, such as the freshly processed ones. The customers can't wait to eat those cheap foods.

"Oh right, prepare more fruits, pastries, soup, and so on. They won't be able to eat much after drinking enough water."

Everyone was stunned when they heard that. Profiteering! A blatant profiteering!

Fresh gimmicks coupled with these small tricks would definitely earn her a lot of money. If this fellow didn't become a profiteering merchant, it would be a waste of her bad water.
