

The Yun Family's Ninth Child is an Imp! Chapter 2572

After a quarter of an hour of confrontation, the Wolf Pack began to get restless. It looked like they were ready to attack.

“Come on!” “We just happen to have some wolf meat for a meal. I heard that your meat is delicious. Whether it’s braised or stewed, it’s fragrant. I’ve been craving for it for a long time.” “Come over!” “My Babies, don’t be afraid. Our Big Pot is waiting for you!” Yun chujia said as she wiped her saliva with her hand.

The wolf pack could not help but take a few steps back, because they could really see the look in the little girl’s eyes that she wanted to eat them. It was so scary!

The Wolf Pack hesitated again. They felt that there must be a conspiracy. Otherwise, under normal circumstances, shouldn’t these people be terrified? Why did they still want to eat them?

..

The people on the square of the origin chaotic sect were all dumbfounded. That little girl leaned against a red line and said a few words, forcefully scaring the group of fire-breathing bald-back wolves?

How was this possible?

The disciple who was controlling the array was about to release some more fire-type demonic beasts when he heard a shout. "Stop! What nonsense! Who allowed you to increase the difficulty of the test? ! Bian Chen, why didn't you stop them?"

The person who came was elder Linghu. His face was ashen, and he was clearly very angry. He had something urgent to attend to and left for a while. He had thought that it would only be the first round of the test and that Bian Chen would be in charge without any problems. He had not expected that they would increase the difficulty of area nine without permission, and even increase it again and again.., they were really audacious!

Bian Chen's pupils constricted, and then he said with a face full of self-blame, "Master, this matter is not at the fault of the Junior Brothers. It was my idea.

"I am not targeting the candidates from region nine, but the other regions have already eliminated close to seventy percent of the candidates, while region nine has only eliminated a few dozen people. That is why I asked the junior brothers to increase the difficulty of the test.

"If master wants to punish, then punish me alone!"

When the disciples who controlled the array saw that Bian Chen had taken all the responsibility, they immediately revealed grateful expressions. As expected of senior brother Bian Chen. He really loved his fellow disciples, and was also responsible.

When elder Linghu heard Bian Chen Say This., his expression softened a little. “Although what you said makes sense, since they were able to pass, it means that they have the strength or luck. They shouldn’t increase the difficulty of the test. This is unfair to them. “Quickly withdraw the increased difficulty. After the test, we will announce the results of your punishment.”

Everyone nodded their heads repeatedly. The difficulty of the No. 9 good area quickly returned to normal.

Yun Chujiu and the others were confronting the wolf pack when the Wolf Pack suddenly disappeared. Moreover, the volcano was also nowhere to be seen. Instead, the flood came again.

Everyone looked at Yun Chujiu. This guy wouldn’t charge another fare, right?

Yun chujiu was delighted. “I’m not that greedy. All of you, get on the ship!”

Everyone heaved a sigh of relief and boarded the boat. They could finally catch their breath!

Elder Linghu looked at the scene on the number nine shadow rock and raised his hand to let Bian Chen go over. He wanted him to tell him in detail what had happened.

Bian Chen told him what had happened. He did not exaggerate or distort the facts. After all, there were many people present. If he lied, it would be easily exposed.

As no one could see what had happened in the water or the palace, they could only see part of the scene. Elder Linghu's impression of Yun Chujiu was limited to this little girl who was greedy and clever.
