

## The Yun Family's Ninth Child is an Imp! Chapter 2573

Not many people knew about Yun Chujiu and the Divine Devil Hall. Only Master Baili and a small number of people in the primordial chaos sect knew about it. Elder Linghu did not know about it, so he did not know Yun Chujiu.

After listening to Bian Chen's story, he had some impression of Yun Chujiu. However, he felt that Yun Chujiu's spiritual power was too low. Even if she was a little clever, it would be difficult for her to reach the end.

When the time for the test arrived, the people who passed the first round of the test were transported to another square in the primordial chaos sect.

About seventy percent of the participants were eliminated in the first round of the test. Only a few dozen people were eliminated in area nine.

The people in area nine immediately felt relieved that they had been cheated out of tens of thousands of spiritual stones by Yun Chujiu. They also decided that if possible, it would be best to follow this little girl. Perhaps they would really be able to pass the test without any obstacles.

Before they could recover from the excitement of passing the first round of the test, they heard someone say, "Congratulations on passing the first round of the test. Now, the second round of the test begins."

As soon as that person said that, a white light flashed in front of their eyes. When they opened their eyes again, they were already in a forest.

That voice rang in their ears again with a slightly evil smile. "The content of the second round of the test is very simple. It is the survival test without spirit energy.

In other words, you are unable to use spiritual power here, and you are also unable to use storage rings and spiritual beast bags. Those who can survive in this demonic beast forest for ten days will be considered to have passed the test. I will be waiting for you in the third round of the test. I wish you good luck."

Everyone wanted to curse when they heard this. Sealing their spiritual power and throwing them into the demonic beast forest, how could they survive for ten days? Not to mention ten days, even ten hours was impossible, okay? This primordial chaos sect's test was really abnormal!

This time, everyone was not teleported together. Instead, three to five people were teleported to the same place. This demonic beast forest was extremely large, so the chances of encountering other people were very small.

Fortunately, Yun Chujiu had a trick up her sleeve. When she heard the voice, she held hands with Jin Zhi and the others to prevent them from being separated during the teleportation.

Therefore, the four of them were teleported to the same place as they wished.

After listening to the content of the test, Jin Zhi and the other two were dumbfounded!

“Oh my God, aren’t they asking us to wait for death? “Let’s not talk about the Demonic Beasts’ attacks. There’s no water and no food. Aren’t they asking us to starve to death “I’ve never heard of such a test. It’s too much!”Ye Bingyu said angrily.

Jin Zhi and Xue Wuji also echoed her. How could she live without spiritual power?

A certain Jiu and Jiu Yi looked calm. In her previous life, she had been thrown into the primeval forest for survival training. This was not difficult for her at all. However, it was a bit troublesome when she encountered demonic beasts.

Yun chujiu waited until Jin Zhi and the other two had almost vented their anger. Then, she said faintly, “Are you done complaining? Now, let’s go find food and water.”

“Little jiu, there are trees here. How can there be food? ! Are we going to eat leaves to satisfy our hunger in the future? Moreover, we didn’t hear the sound of water. Will there be a stream here?”Jin Zhi said with a frown.

“First, there must be plants in the forest besides trees. Some of the tubers of the plants can completely satisfy our hunger. Second, since there are demonic beasts here, there must be a water source. In the

worst case scenario, we can still hunt some demon beasts and use them to supplement food and water,"yun chujia said confidently.
