

The Yun Family's Ninth Child is an Imp! Chapter 2580

Soon, their gloating expressions turned into disbelief!

That was because Yun chujia easily used a rope to swing herself onto another tree, dodging the wind blade attack of the wind blade short-tailed wolf.

What was even more unbelievable was that the wind blade short-tailed wolf actually fell to the ground, bleeding from all seven orifices.

At the same time, the other wind-blade short-tailed wolf was shot in the eye by Xue Wuji. It also bled from all seven orifices and died.

“No, impossible! How could the wooden arrow be so powerful? It's just a small cut on the eye. How could it bleed from all seven orifices?”

“Yeah, this is also unbelievable! How is this possible? Could it be that the two wind-blade short-tailed wolves were poisoned before and happened to have an attack?”

..

Some people were quick-witted and immediately understood what had happened.

“Ah, I know, didn’t they eat roasted snake meat before? I think they put the snake venom on the arrowhead, so the two wind-blade short-tailed wolves were poisoned to death.”

Everyone finally came to their senses. Although they didn’t want to admit it, they had to admit that this move was too wonderful! If that was the case, unless they encountered a particularly high-level demonic beast, they would be safe and sound.

Yun Chujiu and the others jumped down from the tree. When they saw the corpses of the two wind blade short-tailed wolves, they could not help but feel pity. The wolf meat contained a lethal poison, so they could only throw it away. What a waste!

The four of them continued to walk forward while drooling, yun chujiu muttered, “The next time we encounter a demonic beast, we should still use a vine net to clean it up. Although this is risky, it can fill my stomach. I’m so hungry that my heart is sticking to my back!”

While Yun Chujiu was talking, she found a small plant with long and thin leaves in front of her. She immediately said happily, “There’s food! Hurry up and dig!”

When Jin Zhi and the other two saw the plant that Yun Chujiu was pointing at, they immediately became discouraged!

“Little Jiu, are you hungry? That’s devil yam. After eating it, your tongue and throat will be swollen and painful!” Jin Zhi glared at Yun Chujiu and said.

Yun Chujiu said with a smile, “Of course it’s poisonous to eat them directly. I have a way to deal with these things. Listen to me and dig some quickly. When I find a water source, I will have a way to deal with these Devil Yam.”

Jin Zhi and the other two were skeptical. They could only follow Yun Chujiu’s instructions and dig out the fat roots of the plants from the ground. Then, they put them into the basket on their backs.

The people from the primordial chaos sect were already a little dispirited from the blow. However, when they saw Yun Chujiu and the others digging out those devil yam, they were instantly energized!

“Haha! This Yun Chujiu is really obsessed. She actually prepared to eat those devil yam. She’s simply courting death!”

“That’s right. I didn’t expect that they would still be poisoned to death after a long time. What a waste of effort!”

“That’s not right. They only dug it out and put it in the basket instead of eating it. Could it be that they were just digging for fun?”

“Forget it! They must not be hungry now. They will eat it when they are hungry. Let’s wait for a Good Show!”

..

In the evening, Yun Chujiu and the others finally found a small stream. Although the stream was very small, it was enough to make the four of them ecstatic!

After Yun Chujiu found that it was not poisonous, Jin Zhi and the other two drank to their heart’s content.

After the four of them drank to their heart’s content, yun chujiu said, “This is a water source. It will definitely attract demonic beasts. So, let’s get some water away from here.”

The three of them nodded. However, they did not have pots or buckets. How could they get the water away?
