

The Yun Family's Ninth Child is an Imp! Chapter 2587

Yun Chujiu took out a sudden rupture talisman and blew the big tree into pieces. The scene in front of her changed.

She saw a candidate fighting with five level 40 horned bulls. While the candidate was distracted, he was bitten by a horned bull and died!

Before the candidate died, he glared at Yun Chujiu with hatred.

Yun chujiu touched her nose. This matter did not seem to have anything to do with her, right? It was his own fault for not paying attention!

The five sharp-horned bulls looked at Yun Chujiu in confusion. Just as they were hesitating on what to do., they heard Yun chujiu say, "Five ox lords, you guys do what you need to do. I'm just a passerby. Let's not meddle in each other's business. See You Later!"

The five pointy-horned bulls thought for a moment. Their mission was to 'kill'this unlucky fellow. As for this little girl, she really had nothing to do with them.

Therefore, they ignored Yun chujiu and only stared at the 'corpse'on the ground.

Seeing this, Yun Chujiu quickly ran away.

Yun chujiu quickly found a big tree full of pale pink flowers. She took out a sudden rupture talisman and blew it up. Then, she was teleported to another area..

As the scene was played in turn, no one in the primordial chaos sect saw Yun Chujiu's actions at first. It was only when someone was watching a contestant fight that they suddenly saw a certain jiu swaggering into the scene.

That person looked as if he had seen a ghost. "Ah, ah, ah, why, why did she come in?"

The crowd did not understand and thought that the person who spoke had gone crazy. After laughing for a while, that person argued, "I saw Yun chujiu in this area just now!"

The crowd was amused and laughed out loud, "Are you stupid? Yun Chujiu was killing demonic beasts in her own area. How could she come to this candidate's area? This is simply impossible."

After hearing what the crowd said, the person was also a little confused. Could it be that his eyes were playing tricks on him? That's right. These areas were all independent. How Could Yun Chujiu come in? He must have seen wrongly.

As the shadow stone only played the images of the contestants and demonic beasts, the images that Yun chujiu flashed across were very few.

So, after a long while, another person happened to see Yun chujiu flashing across the screen. He immediately exclaimed!

“Oh my God! Why is Yun Chujiu in this 800 area? What’s going on?”

After everyone heard that, they naturally laughed at that person, thinking that his eyes were playing tricks on him.

However, one after another, people noticed Yun Chujiu’s figure flash past, and some even stopped for a short while, saying something to those demonic beasts before disappearing.

If one or two people said that they might have hallucinated, but more than ten people said that they saw Yun Chujiu’s figure, then this matter was a little strange.

Thus, someone went to elder Yuwen, who was in charge of the third round of testing, and explained the situation.

Although elder Yuwen was old, he had a fiery temper. After hearing everyone's words, he scolded everyone.

"You still have the face to say that you are disciples of the Primordial Chaos Sect? Don't you know that these test areas are separated by arrays? How could that 'Jiu' appear in other test areas? "And there are several test areas? "Did you see a ghost or was your head kicked by a Demon Beast?"

While elder Yuwen was cursing, his eyes accidentally swept across a shadow stone and he didn't say anything. Because on that shadow stone, other than a candidate, there was also a little girl who was grinning and talking about something.

Damn, it is a ghost!
