

The Yun Family's Ninth Child is an Imp! Chapter 2590

The people of the primordial chaos sect stared at the number nine shadow stone with their mouths Agape. This Yun Chujiu was too much!

Other people who came to participate in the test would just obediently participate in the test. Yet, not only did she earn so many spirit stones, she was even jumping around inside the array formation. She was really too arrogant!

Many people were filled with righteous indignation as they stared fixedly at the figure who was jumping around. All of them were gnashing their teeth as if they were looking at their enemies.

However, there were also some people who felt that they had vented their anger. When they first entered the sect, they had been tormented by this wicked test. Now, Yun Chujiu's actions were simply a slap to the face of the person who had created the test! Wasn't this too great? !

Elder Yuwen stared at the No. 9 shadow stone with a dumbfounded expression. So that little girl was shuttling between various regions to help her companion pass the test?

Elder Yuwen was slightly touched. He had not seen such a pure heart for many years! Based on this point, elder Yuwen had a good impression of Yun Chujiu.

It was inevitable for young people to be a little mischievous. Moreover, this could only mean that the old thing who designed the array formation was really too stupid! You made the eye of the array formation into a blossoming tree. It was too eye-catching! No wonder the little girl had found a flaw.

Inside the formation, Yun Chujiu had traversed more than a hundred regions. This fellow was a little tired.

She felt that if this continued, if her luck wasn't good, she might not be able to find Jin Zhi and Xue Wuji until the end of the test.

How could she quickly find Jin Zhi and Xue Wuji?

After thinking about it, she really didn't have any good ideas. After all, the formation's eye was a random teleportation. Even if she knew where Xue Wuji and Jin Zhi were, she wouldn't be able to reach them directly.

However, they could still think of ways to save some energy.

Hence, the people from the chaos origin sect were dumbfounded as they watched a certain Jiu who was on foot turn into a young girl riding a leopard. She continued to pass through the various regions in a hurry.

The regions that she passed by were like dogs that were crying. Why did they have to fight miserably with the demonic beasts while Yun Chujiu was able to ride a leopard around?

However, this guy was not idle. He would tease her from time to time:

“Hey! You have to work harder! In the area I passed by before, they have already killed a demonic beast! If you don’t work hard, you will be eliminated!”

“Hey, that little guy, watch your back! Emma, it’s too late. I’m sorry, I Let You Die again.”

“What? You Want Me to help? I’m sorry, the profiteer is busy right now. I don’t have time!”

..

The disciples of the Primordial Chaos sect were speechless!

When they heard that a weirdo had appeared in the third round of the test, many elders rushed over to watch the show. Even elder Jing, who was designing the array formation, rushed over.

Seeing that his proud work had been played to such a state, elder Jing almost wanted to bang his head against the wall! It was too f * cking embarrassing!

However, elder Yuwen was still ridiculing him. "Old friend, how is it? I told you there was something wrong with your array formation, right? You Didn't believe me, but now you do, right? Are You Stupid? Why did you have to use such a beautiful tree as the center of the Array Formation?"

Elder Jing was so angry that he was twitching. Normally, the testers wouldn't have enough time to deal with the five level 40 demonic beasts. How would they have the time to pay attention to the tree in the distance?

Besides, there were more than 10,000 people here who hadn't found any flaws. How could this Yun chujiu make such a mess? !
