

## The Yun Family's Ninth Child is an Imp! Chapter 2597

The reason why everyone was so nervous was because they were afraid that if the giant ore-devouring ants ate all the ores, they would not be able to pass the test!

Yun chujiu blinked her eyes and lazily sat back on the recliner. Anyway, those idiots would stop her, so she continued to bask in the Sun.

Jin Zhi asked in a low voice, "Little Jiu, aren't we going to help?"

"There are so many people! There's no need for the four of us. Let's just watch the show."

"What if they chase the ant colony to our place?" Jin Zhi frowned worriedly.

"If they really do that, that's not bad. Let's wait and see. There's no rush. At worst, we'll just let them gnaw on the mine!" Yun Chujiu said indifferently.

Jin Zhi and the other two could not figure out what Yun Chujiu was thinking, so they could only stretch their necks to watch the battle ahead.

Although the ant colony was not small, there were about 5,000 participants, so the ant colony did not gain any advantage. After a portion of them were killed or injured, they fled in a panic.

Only then did everyone heave a sigh of relief and continue to dig the mine.

Unexpectedly, after only two hours, the ant colony returned! Moreover, the number of ants had returned to its previous size, and they were quickly crawling towards the mine.

Everyone had no choice but to meet the ant colony again. Then, the ant colony retreated again. After two hours, the ant colony attacked again..

Everyone was very annoyed by the ant colony. They had clearly killed many of them, but when the ant colony reappeared, it actually returned to its original size. Not to mention that this endless killing had delayed the mining., they didn't even have time to rest. It was really too terrible!

While everyone was frustrated, they saw Yun Chujiu and the other three people in the corner who were leisurely enjoying themselves. They were here desperately resisting the giant ore-devouring ants, but those four people actually didn't come over to help. It was really detestable!

Therefore, everyone had a tacit understanding and began to drive the ant colony toward Yun Chujiu and the other three. It was also good to let these giant ore-devouring ants eat up Yun Chujiu and the other three's mines first. This way, they could buy a lot of time for them.

After Jin Zhi discovered the intentions of those people, she was both anxious and angry. “Little jiu, if they really drove the ant colony to our place, what should we do?”

Yun chujju stood up and curled the corners of her lips. Then, she stretched her neck and shouted, “Hurry up and get rid of the ant colony. Otherwise, I won’t hold back!”

When the other contestants heard Yun Chujiu’s shout, they all laughed and fell back. Was there something wrong with this Yun Chujiu’s head? They were the ones who rushed to her place on purpose. How could they take away the ant colony?

Besides, who did she think she was? And she even ordered them? She really didn’t know her own limits.

Yun chujju raised her voice again. “I’ll give you another chance. Hurry up and get rid of the ant colony. Otherwise, you’ll regret it!”

Everyone laughed even harder. This Yun chujju was most likely not very smart. Would they regret it? In their dreams!

Yun chujju laughed very happily. If they were not kind, then don’t blame her for being unrighteous!

Yun chujiu whispered a few words to Xue Wuji and the other two, and then jumped in the direction of the ant colony.

When everyone saw this, they could not help but cry out. Was this Yun chujiu crazy? Could it be that she wanted to defeat the entire ant colony by herself? Although they had already eliminated a small portion of the ant colony, there were still thousands of them left!

Everyone was surprised to find that Yun chujiu had directly charged into the ant colony, and those giant ore-devouring ants kept shooting ant acids at her.

However, Yun Chujiu's body not only had a spiritual energy barrier, but also several layers of defensive barrier. Although the defensive barrier kept breaking, that guy seemed to have countless defensive spiritual artifacts on him, and he had actually charged to the center of the ant colony unharmed, she grabbed the ant queen's two antennae and slammed them hard on the ground..
