

## The Yun Family's Ninth Child is an Imp! Chapter 2598

Everyone was confused. Could it be that Yun Chujiu was planning to kill the ant queen?

She was really stupid!

Although the ant queen was dead and the ant colony would be in chaos, this ant colony was just an illusion created by the formation. If this colony retreated, there would be a new colony. It was simply a waste of so many defensive spirit tools.

Outside the formation, the people from the Chaos Origin sect also shook their heads. This Yun Chujiu seemed to be quite smart. Why did she act so foolishly this time? Could it be that she had been provoked too much?

At this moment., everyone heard Yun Chujiu say to the ant queen, "Little Thing, let's Make a deal! You guys have been attacking for a long time, but you haven't even eaten a single piece of spirit ore. You guys are really stupid! How about this, as long as you listen to me, I will provide you with the ore to eat."

When the contestants heard Yun Chujiu's words, they laughed so hard that tears were about to come out. It seemed that this Yun Chujiu was really mentally ill! Did she think that the ant queen would listen to her just because she said a few words? Besides, where was she going to get ore to feed the ant colony?

No one expected that the ant queen's antennae would sway and actually agree!

In fact, they did not know that Yun Chujiu had already established a temporary contract with the ant queen. What she said just now was nothing more than for everyone to hear!

Just as the contestants were stunned, they saw Yun chujiu bringing the ant queen and the ant queen walking towards Yun Chujiu's mine.

Everyone thought, could it be that Yun chujiu really wanted to feed her mine to the ant colony? Was she crazy?

Just as everyone was guessing, they saw Yun chujiu take a turn and actually bring the ant colony to a mine next to her.

The candidate in charge of the mine had a bad premonition. he shouted, "What, what are you doing?"

Yun chujiu looked at him as if he was an idiot. "What are you doing? Of course, I'm feeding my precious ant colony! Do you think I'm stupid enough to feed them with my own mine?"

The Man's face turned red from anger. His whole body trembled as he shouted, "You, you're Shameless! What right do you have to feed my mine to the ant colony?"

Yun chujiu sneered, "What right do I have? You didn't participate in driving the ant colony to me just now? You are the first day of the Lunar New Year, don't you allow me to be the fifteenth? Stop talking nonsense, get lost! My ant colony is about to eat!"

"You, you, you" the man was almost suffocated by the rebuke. He quickly looked at the other candidates, wanting them to help, but he didn't expect them to act as if they didn't see him.

What a joke, who would dare to help him? What if he got into trouble? His mine was enough for the ants to eat for a while, giving them the time to continue digging.

Seeing this, that candidate's heart immediately broke down. He cried and said, "Yun Chujiu, no, great aunt, as long as you let me go, I'll Give You Spirit Stones. You just need to say a number."

Yun Chujiu touched her chin. "TSK tsk, you're really pitiful. How about this, I'm not a greedy person. You just need to give me 100,000 high-grade spirit stones."

Just as the candidate was about to agree, yun chujiu continued, "However, you can't just give me spirit stones. You have to help me mine for four hours."

The candidate gritted his teeth. "Alright, I agree!"

After Yun Chujiu received the Spirit Stones, she took out a portion and fed it to the ant queen and the ant colony.

Everyone thought to themselves, this stinky girl actually fed the spirit stones to the ant colony. She was really willing to part with it! But that was also true. Since it was extorted, of course they wouldn't feel sorry for her!

While everyone was watching the show, they didn't expect Yun chujiu to lead the ant colony to the next door to the person from before, she looked at the candidate from the mine with a smile and said, "Choose for yourself. Do you want the ant colony to eat up your mine, or do you want to make the same choice as him?"
