

The Yun Family's Ninth Child is an Imp! Chapter 2601

The tester's voice sounded again, "You guys can take the corresponding number of jade tokens! As for the group of four, it can only mean that you guys don't have a good relationship with people. There's no other way, you can only form a group of four!"

Yun Chujiu could hear the gloating voice from the Tester's voice. She snorted in her heart. So what if there were fewer people? So what if they were not allowed to use the talisman? They could still pass the test. If they did not believe it, they would have to wait and see!

That person continued, "Your mission is to obtain the seven-headed man-eating Flower's demon core. The time limit is half a month. The top 200 teams with the most people will pass the test. In addition, as long as one person in your team dies, your team will all be eliminated."

Yun chujiu frowned. Seven-headed man-eating flower?

Seven-headed man-eating flower, as its name implied, had seven heads. This kind of seven-headed man-eating flower was very cunning and agile. They had to cut off all seven flower heads within fifteen minutes before the seven-headed man-eating flower would die completely. Otherwise, the flower heads that were cut off would be reborn, which was very difficult to deal with.

The rest of the group had seven people. When that time came, each person could focus on one flower head, but the four of them would be miserable! At that time, after chopping off one flower head, a new flower head would grow. It would be as difficult as ascending to the heavens to kill a seven-headed man-eating flower.

The other contestants had obviously thought of this as well. All of them looked at Yun Chujiu and the other four with schadenfreude. This time, they wanted to see how she would continue to misbehave! This time, they would definitely be eliminated. It was really satisfying!

It wasn't just the contestants who thought this way. The people from the primordial chaos sect also thought this way. Yun Chujiu and the others would definitely be eliminated this time!

Elder Yuwen snorted angrily. He knew that elder Jing must have done this on purpose. This old thing was really going back to his old ways. He was actually competing with a little girl!

At this moment, Yun Chujiu and the others had already been teleported to a piece of wilderness.

There were seven man-eating flowers scattered across the wilderness. The sunflower-like flower heads looked very pleasing to the eye, but once they became violent, the flower heads would turn into bloody mouths and wind blades would continuously shoot out from them, it was very terrifying.

Yun chujiu was very puzzled. If the seven man-eating flowers killed their prey, how would they eat?

This fellow was really bored. He took out a wind-edge rabbit's corpse from his storage ring and threw it at the nearest seven-headed man-eating flower.

Wind Blades shot out from one of the flower heads, and the wind-edge rabbit's corpse was instantly chopped into several pieces. Then, several thin threads stretched out from the stem of the seven-headed man-eating flower and rolled the wind-edge Rabbit's corpse over, stuffing it into the flower head.

Yun Chujiu touched her chin. This thing was really difficult to deal with! The most important thing was that this thing only had simple intelligence. She could not fool it.

At this time, the other groups had already started fighting.

Seven people were each responsible for one flower head. They tried their best to kill the flower head at the same time. Even so, it would take at least two hours, or even four hours, to kill a seven-headed man-eating flower.

After killing all seven flower heads, the demon nucleus would be found in the root of the seven-headed man-eating flower. The demon nucleus of a demon plant was similar to the inner core of an animal. Since high-level demon plants were rare, the market price of the demon nucleus was quite high.

Yun Chujiu and the others also tried to attack a seven-headed man-eating flower, but they could not kill all seven flower heads in less than fifteen minutes. Therefore, they worked for a long time but still got nothing. They were exhausted.
