

The Yun Family's Ninth Child is an Imp! Chapter 2602

The group that had successfully obtained the demon nucleus looked at Yun Chujiu and the other three with disdain, their faces full of schadenfreude.

They did not dare to provoke them in front of their faces, so a few groups gathered together to mock them.

“Your group also obtained a demon nucleus just now? Congratulations! Congratulations! Our strength is about the same, some groups will be miserable!”

“Yeah, it's their fault for not being popular. There are only four of them! The seven-headed man-eating flower is famous for being difficult to deal with. Only the four of them want the demon core. Dream On!”

“The cycle of Tian Dao is not happy with retribution! Some people do too many bad things and inevitably suffer retribution! Haha!”

..

Ye Bingyu was so angry that her face turned red. Just as she was about to argue with them, Yun chujiu waved her hand. “It's just some mad dogs barking. Why bother to lower yourself to their level!”

Ye Bingyu stomped her feet in anger and didn't say anything.

Xue Wuji frowned, he said in an extremely low voice, "Little Jiu, we can't go on like this. We've tried our best just now, but we still can't kill seven flower heads at the same time. Unless you let out your spiritual pets to help. But if you do that, I'm afraid you'll get into trouble."

Yun chujiu nodded and said, "Brother Wuji, what you said makes sense. I'll think of another way. Unless it's absolutely necessary, I don't want Xiao Hei and the others to be exposed."

Xue Wuji and the other two nodded their heads. They were also racking their brains to think of a solution.

On the square, when the people of the primordial chaos sect saw Yun chujiu and the other two frowning, their eyes were filled with tears of excitement, as if they had taken a tonic pill.

Hahaha! This Yun Chujiu was finally at her wit's end, wasn't she? They thought that she was omnipotent! A sixth layer of the Lingxuan realm actually wanted to enter the primordial chaos sect? Dream On!

Elder Jing stroked his beard and looked at Ying Shi with satisfaction. Elder Yuwen glared at him fiercely. "She's really going back to her old self! Useless!"

Elder Jing glanced at him. "That's not true! I didn't force the other contestants not to team up with her. It's her own lack of popularity that's to blame, isn't it?"

Elder Yuwen was rendered speechless. Yes, this was a free team. No one was willing to team up with them, and no one else was to blame.

Humph! However, this old guy must have set up this level on purpose. The fifth round of the test was not supposed to be about this Bullsh * t seven-headed man-eating flower. He had clearly expected that Yun chujiu and the others would be left behind. How cunning.

In the blink of an eye, two days had passed. The worst of the other teams had already obtained four demon nuclei, but Yun Chujiu and the others still did not find anything.

Yun Chujiu and the other three were not in a good mood. They could not think of any good ideas.

Ye Bingyu gnashed her teeth and said, "If you want to blame someone, then blame the person who was behind the scenes. Wouldn't it be fine if there were ten people in a group? If that's the case, those people can only be divided into six people to be in a group with us."

Yun Chujiu's heart moved. "Sister Bingyu, repeat what you just said."

Ye Bingyu was stunned and repeated what she just said.

Yun Chujiu's eyes revealed a crafty look. "I have an idea!"

"What Idea?" Xue Wuji and the other two looked at Yun Chujiu in surprise.

Yun chujiu gathered the three people together and whispered a few words in a low voice.

"This... little jiu, will this idea work? Will they agree?" Jin Zhi felt that Yun Chujiu's idea was not very feasible.

Yun chujiu curled the corners of her lips. "We can just give it a try! If it really doesn't work, I can only let Xiao Hei and the others out."
