

## The Yun Family's Ninth Child is an Imp! Chapter 2603

When the people of the primordial chaos sect in the square heard Yun chujiu say that she had a solution, they were all scratching their heads anxiously. However, Yun Chujiu's voice was very soft, so they could not hear her at all.

Someone snorted coldly and said, "I think that Yun chujiu must be bragging! What solution could she have?"

"Exactly. Didn't you see that the three people's expressions were not too excited? I reckon that the solution she said will not work."

"Does she really think that she is omnipotent? Pui! I want to see what kind of tricks she has up her sleeves."

..

On the morning of the third day, Yun Chujiu and the other three did not start attacking the seven-headed man-eating flower after breakfast. Instead, they began to stroll around. Strolling around was like an outing.

The people of the primordial chaos sect thought to themselves, didn't they say that they had already come up with a method? Why did they start strolling around again? Could it be that they had given up?

Yun Chujiu's group of four soon ran into group number four, who was trying their best to kill a seven-headed man-eating flower.

Group Number Four's strength was considered average among the contestants. Therefore, they had to seize every second, or they would be eliminated easily.

When the seven people of group number four saw Yun Chujiu and the others coming over, although they were curious, they did not pay attention to them. They thought that these four people might be here to learn from experience.

They despised them in their hearts. Even if they learned more, it would be useless. The four of them had no way to kill the seven-headed man-eating flower.

Finally, two hours passed. Team four killed the seven-headed man-eating flower and took out the demon core.

"Hey! How about we talk business?" Yun Chujiu said with a smile.

"Talk, talk about what business?" The team leader of team four subconsciously clutched his storage ring. This Yun Chujiu was full of bad ideas. What business was she doing? Was she going to buy their demon nuclei? Dream On!

“Don’t be nervous, I won’t steal your demon nuclei. I’m a scholar merchant, why would I do something like buying and selling by force? !”

Hearing Yun Chujiu’s words, the seven people of Group 4 all had mocking expressions on their faces.

Pooh!

You Say it nicely, but you’re a F \* cking profiteer!

Yun chujiu continued, “I watched the process of your fight just now. Although you finally obtained the demon nuclei, it was quite strenuous. “I have a win-win solution, which is that we will fight each other as one unit. How about we work together?”

“I’m not greedy. We will split the demon nuclei equally. You get one and I get one. This way, everyone will be happy. Don’t you think it’s a good deal?”

The seven people in group four almost spat on Yun Chujiu’s face. Could you be any more shameless? What right did the four of you have to share half of the effort? Besides, who would join forces with you? Four weaklings, get lost!

Before the team leader of Team 4 could express his firm rejection, he heard Yun chujia continue, “Do you think that we are taking advantage of you? Wrong! Very wrong!

That’s right, we only produced four people, but wisdom is priceless! With my help, eleven of us are definitely more capable than fourteen people! Think about it, during the first round of the test, when you killed the demon beasts underwater, was it me who gave you the command? Was it one plus one greater than two?

Moreover, the scattered seven-headed man-eating flowers were almost all killed, and the next one might be two or even a patch of seven-headed man-eating flowers. How could the seven of you be effective?

“Listen to me. Let’s form a team first. When we meet other teams, I’ll pull them in as well. “When the time comes, we can definitely crush the other teams. Do you think what I said makes sense?”
