

The Yun Family's Ninth Child is an Imp! Chapter 2605

In the square, the people of the primordial chaos sect were dumbfounded. They felt that their worldview had been refreshed to a whole new level.

Oh God, so there were so many tricks in the test?

What were those people thinking? Why did they agree to team up with Yun Chujiu?

Yun Chujiu and the others had only used three combat powers and one mouth, but they agreed to split the demon nucleus equally? Were their brains fried?

And those people who were forced to give up their territories, were they stupid? Yun chujiu couldn't really make a move, so why were they so cowardly?

The originally happy mood of everyone suddenly became listless. They had originally thought that Yun Chujiu and the rest only had four people and would definitely be eliminated. Who would have thought that they would just open their mouths! Anyway, there was a group of Fools who would listen to her orders!

Elder Yuwen laughed heartily. "Old Thing, did you see that? Even if you use your little tricks, you can't do anything to that little girl. This little girl really has a good temper towards this old man. She's smart enough, domineering enough. Not bad, not bad."

Elder Jing's face alternated between green and white. This was already the fifth round of the test and there was only one more round left. It seemed that he had to properly plan it out.

Elder Jing stopped looking at the Shadow Stone and ran away.

Elder Yuwen pursed his lips. That Petty Old Thing. However, it seemed that no matter how sinister he was, he could not defeat that little girl. The little girl would definitely be able to enter the primordial chaos sect. He really looked forward to the days to come!

At this moment, inside the formation, Hei Xinjiu led the joint team and killed countless seven man-eating flowers like the autumn wind sweeping away fallen leaves.

Some candidates were tempted and wanted to join the team, but they didn't expect to be sternly rejected by Yun Chujiu.

"I'm sorry, we're already full. If you want to follow me, please come early next time," a certain Jiu said pretentiously.

A certain Jiu rejected these people because she counted with her fingers. Everything had a critical value. If she added more people, the efficiency value would be reduced. Besides, she liked to force people to join the team. She didn't care about people like her!

Soon, half a month passed.

When the test was about to end, Yun chujiu distributed the demon nuclei to everyone.

Everyone calculated that if they didn't form a team, they would only get half of the number of demon nuclei. Their resentment toward Yun Chujiu disappeared instantly.

Of course, everyone was still very confused about the fact that a certain Jiu's demon nuclei were much more than everyone else's. Yun Chujiu had already made an oath. Logically speaking, she would not dare to keep it a secret. Could it be that their arithmetic was not good, so their calculations were not correct?

A white light flashed and everyone was teleported to the square.

Unsurprisingly, all the members of the joint team passed the fifth round of the test. A certain Jiu's demon nuclei were thrown to the back of everyone's mind.

"Congratulations on passing the fifth round of the test. Now, the sixth and final round of the test will begin. The results of the sixth round of the test will be the basis for you to become an inner disciple, outer disciple, or handyman."

When everyone heard the words of the tester, they were both nervous and expectant. They perked up their ears to listen to what the tester had to say next.

“This round of test is very simple. You will pass through the mountain gate of the primordial chaos sect in turn. The Stone Pixiu on both sides of the mountain gate will decide whether you will stay or leave based on your character and aptitude.”

The crowd was a little puzzled. Didn't they say that inner and outer disciples would be divided according to their grades? How would they be divided?
